why the Daily News had such a large circulation in the city. It was easy to answer. The reason is because those responsible for the production of the paper put the very best they can afford into its makeup and sometimes more than they can afford. They give the people the best possible for the money.

ONLY that is the price of The Daily News

Delivered to Your Home

It's worth ten cents a week to get the Waterfront Whiffs on Saturday. It's worth something to have the topics of the day discussed in an impartial and interesting manner. It's worth something to follow the adventures of Tillie the Toiler every evening. It's worth a good deal to be able to read the local advertising and to know where to buy and what price to pay.

The Daily News is a paper that is representative of the city and no one need be ashamed to send it away to their friends.

Telephone the office and the boy will call and collect.
