EMPIRE BROADCASTS

In view of the recent movement toward imperial unity a system of Empire broadcasts by short wave is contemplated by the British Broadcasting Corporation and a very quarter of a million dollars and the upkeep on this station will be about the same annually as the capital investment. CHURCH NOTICES It is expected that programs sent out from this new station should reach Canada before the end of the present year and should be picked up on short wave instruments in Prince Rupert when conditions for reception are right. Experiments have been conducted for the past five years with considerable success.

The writer of the article is very enthusiastic over the British system which with modifications he thinks would be suitable for Canada.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Storms, R.R. 5, Picton, Ont., writes:—"I was troubled with palpitation of the heart; couldn't sleep, day or night, and was so weak I could hardly get around. After taking Milburn's Heart and Nerve Pills

I was greatly relieved of these attacks. My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

SPENDING TO SAVE .. THROUGH

Advertising

Not many of us, these days, are troubled with so much money that we cannot spend it. But we are interested in spending the money we have, to get the most out of it.

One way—and not a new way, either—is to make a budget. Put down, week by week, the money that comes in. Put down beside it, week by week, the money that goes out. So much for food, so much for clothing, so much for rent. So much for giving, and for luxuries.

Where Advertising Helps

It won't always be easy, of course, to stay within the budget. That's where advertising helps you. Advertisements in this newspaper tell you how much rugs, butter, breakfast foods, dishes, homes, automobiles will cost, before you go shopping! They point out ways to save money. They show you how to cut a little here, a little there. And each day, they tell about new inventions, new products, new ways of doing things, that help make this life of ours very much worth living!
