

### Sores Broke Out All Over Her Body

Mrs. T. E. Cliff, Kelwood, Man., writes:—"My little daughter's hands and arms broke out in sores which spread all over her body. Nothing I tried gave her any relief

until I got a bottle of Burdock Blood Bitters, and I could see an improvement, as the sores began to disappear. I gave her three bottles and she has had no more trouble."

#### FLOWERING SHRUBS

Just now the flowering shrubs are at their best in some shows a considerable loss on operagardens. Lilacs are in bloom and so are the mountain ash, tions after depreciation and deplethe broom, the laburnum and the rhododendron and the tion. Operation costs have been hawthorn will be showing color directly. These add very serves considerably increased. The greatly to the beauty of any garden that is large enough refined marketable metals producto accommodate them. With a background of local ever- ed by the company during the year greens they are doubly valuable. Any of these trees have amounted to 5602 ounces of gold. decorative value both before and after blooming and they 322,649 ounces of silver and 26,511,all seem to do well in Prince Rupert.

One thing that is difficult to understand is why people ounces of silver and 48,831,149 BUTTERhere should import evergreens. The local trees are so pounds of copper in the previous 2 lbs. ...... beautiful and do so well here that it seems like a waste to year. There was a limited demand bring in others. Either the hemlock, cedar, spruce or pine, for copper metal throughout the HAPPYVALE PICKLES - Sweet when growing alone, forms a splendid ornamental tree.

### Beauty Parlor For Canines

Ina gnity and impudence! The tiny Peke doesn't mind a trip to the London beauty shop for a hair curl now and then, but Bosso, the bull mastiff registers absolute disgust with such goings on.

## NEWS OF THE MINES AROUND PRINCE RUPERT

Placer Gold Possibilities Near Portland Canal—Annual Report of Granby-Off to Bridge River

An active resumption of placer gold mining throughout the province has directed attention to the possibilities of the Portland Canal district which in past years produced considerable gold, mainly from the Unuk River during ow water, some gold also being obtained from the upper Iskut River and the upper Naas. The placer miners of 50 years ago contented themselves#\_\_\_\_

far as is known, no attempt was Canal district for some years, left made to prospect benches or to Stewart recently for the Bridge search for gold other than in creek River gold district. beds and it is possible that considerable virgin ground remains to be from the Unuk River with nuggets Witchell Elected up to \$10 in value being found, it being stated that during the few Farmers' President weeks of low water when mining in creek beds was possible miners averaged from 46 to 60 onnees per Named President of Nechako Farnan. Ball Creek, a tributary of the Iskut, also produced gold for a number of years from its more easily worked sections and considerable ground is reported to be worth investigation in that area. An un-
