A. Rawforth of Cranbrook has also brought in fine hundred business and professional samples.

The opinion is widely held that it is on the main ore body of a field which yielded millions of dollars of gold in the the fine which rush of 1867 which had not yet been found.

ELKS DANCE ENJOYABLE

Last Year's Officers Hosts at Jolly Gathering Thursday Night-Interesting Novelties

A highly enjoyable dance was staged by last year's officers of the local Elks' Lodge, under the leadership of George C. Mitchell, 1931 exalted ruler, on Thursday night in the Elks' Home. There were about seventy-five couples in attendance and a fine time was enjoyed by all from 9:30 p.m. until 2:30 a.m. A splendid program of dance music was furnished by Charlie Balagno's Venetian Orchestra and, during the evening, some original novelty numbers were introduced, much to the pleasure of all.

The specialties included an exhibition dance, the Tango, by Miss Laura Frizzell and Bill Lambie; burlesque Adagio Dance act by the Levinsky Bros., who turned out to be Bill Stone, Sam Joy and Joe Scott, and a flute and banjo duet by Johnny Saunders and Joe Arseneau. Each number was well received. There was a singing competition between the ladies and the men, the latter losing by default.

Feature of the refreshments, which were served at midnight, were delicious hot cross buns.

George Mitchell was master of ceremonies and A. S. Nickerson presided at the door. Sam Joy was chairman ond the refreshments committee of which George Rodger was also a prominent member.

INDIAN FINED

Jeames Mitchell, Hagwilget Indian, has been fined \$10 and costs with option of five days' imprisonment, by Stipendiary Magistrate R L. OBSTACLE TO BETTER TIMES

Weldon McAfee Tells Rotary Club It Is Desirable to Live Within Means

"One reason for the slowness of the financial recovery I believe is the refusal of the people to face facts and adjust themselves to the changed conditions," stated Weldon R. McAfee, in an address before the Rotary Club at its luncheon Thursbetter times. At last, however, people are realizing it and adopting ways and means of carrying on under the changed conditions."

Mr. McAfee was one of the six men who attended the dinner recently in Vancouver which was adreviewed. He was intensely interested in the facts and figures there produced. A realization of the condition started the improvement in Britain where the value of the pound sterling is already rising and the bank rate decreasing. People had been playing politics too long. No one could say what was the reason the economic structure was out of line, said Mr. McAfee. Doubtless it was due largely to the war and its consequent debt with victory for none. This was followed by a period of frenzied finance and

then came the deflation. In Vancouver Mr. McAfee said he met H. R. McMillan, who had just returned from a business tour of Europe. He had told of the conditions there, the outstanding feature being that Germany was on the verge of collapse.

Closing his speech, Mr. McAfee Victoria Wants made a plea to his hearers to help in bringing about a more stable condition by living within their means. That was most important.

LECTURES COMMENCE

For Prospectors and Mining

A series of lectures on mining subjects to be given by Dr. J. T. Mandy, resident mining engineer throughout the northwestern district, started here Thursday night. The lectures are a continuation of policy started two years ago by the department of mines, to hold instructional classes and lectures in mirting. Lectures this year will develop the foundation laid by the former series and apply the principles expounded, with particular emphasis on local conditions in the Thursday night there was a ca- stored to its parents. also become mineral-conscious.
