CHILD need REGULATING?

CASTORIA WILL DO IT!

When your child needs regulating, remember this: the organs of babies and children are delicate. Little bowels must be gently urged—never forced. That's why Castoria is used by so many doctors and mothers. It is specially made for children's ailments; contains no harsh, harmful drugs, no narcotics. You can safely give it to young infants for colic pains. Yet it is an equally effective regulator for older children. The next time your child has a little cold or fever, or a digestive upset, give him the help of Castoria, the children's own remedy. Genuine Castoria always has the name:

New Stock Transfer Tax Might Mean Closing of New York Exchange, Says Whitney

WASHINGTON, D.C., April 16.—Richard Whitney, president of the New York Stock Exchange, told the Senate finance committee yesterday that, if the plan to impose a one-quarter of one percent stock transfer tax was put into effect, it might reduce business to such an extent as to force the New York Stock Exchange to close which, in turn, might mean a financial panic and national disaster. Mr. Whitney feared such a tax would be destructive in its effects. He was willing to accept a tax of 4c per share as an emergency measure, this being double the present rate.

"THESE HARD TIMES"

"The hard times and scarcity of money makes it more important than ever to economize. One way I save on clothes is by renewing the color of faded or out-of-style dresses, coats, stockings, and underwear. For dyeing, or tinting, I always use Diamond Dyes. They are the most economical ones by far because they never fail to produce results that make you proud. Why, things look better than new when redyed with Diamond Dyes. They never spot, streak, or run. They go on smoothly and evenly, when in the hands of even a ten year old child. Another thing, Diamond Dyes never take the life out of cloth or leave it limp as some dyes do. They deserve to be called 'the world's finest dyes'." S.B.G., Quebec
