NEWS OF THE MINES AROUND PRINCE RUPERT Mandy Looks For Improvement in Silver-P. E. Peterson Returning to B.C.-Central Interior

Activities Reviewed

Dr. Joseph T. Mandy, resident mining engineer for the northwestern mineral survey district, has expressed himself as being rather optimistic with regard to the future market position of silver, basing his ideas on the fact that international interests which have it in their power to initiate a greater use of silver have apparently decided that immediate action with this end in

view is necessary. Recently Dr. from Usk to the headwaters of the Mandy has been devoting his at- relkwa River, also the region imtention principally to likely gold .nediately adjoining the Canadian bearing areas of the coastal region National Railway and west of Dorwhere there is promise with correct reen, Ritchie and Cedarvale as well and sound appraisal of bringing as the upper reaches of Hudson Bay into profitable production small Mountain. Mr. Lay stated that he tonnage mines the aggregate of did not consider the possibilities of which would make an important Hudson Bay Mountain as a field for addition to lode mining in the dis- prospecting for gold deposits as extrict. Particularly good geological hausted by any means yet. He diconditions for such deposits have rected attention more particularly been found to occur parallel to the to the upper sections of the mouncoast in the neighborhood of tain, roughly from 4200-foot eleva-Khutze Inlet and such islands as tion upwards. This was the area in Porcher, Princess Royal and Pitt. which the high temperature mineralization was found which was

"In every important port at which I called, I found two great Canadian institutions the C.P.R. and the Sun Life." So said a globe-trotter recently.

"The Sun Life of Canada is international. It is found in almost all lands and is well thought of."

A former president of the National Life Underwriters' Association, after a world tour.

S INCE 1880, the Sun Life Assurance Company of Canada has extended to five continents. To-day its agencies encircle the globe.

Its world-wide connections and representatives provide facilities and service for its policyholders, when travelling, almost consular in character.

By its scrupulous fidelity in carrying out its undertakings, it has established an enviable reputation for Canadian business methods an invaluable introduction to Canadian traders, and a great advertisement for Canada abroad.

It is an ambassador for the Canadian people.

TAXES AFFECT CUSTOMS

The new taxes will doubtless have some effect on customs of the people. Take for instance the issuing of checks. Bank restrictions have diminished the number of checks in use already and the increased stamp will have an effect in inducing the payment of accounts in cash instead of by check, possibly to the extent that the revenue expected will not be realized. There always comes a breaking point in the matter of taxation beyond which it is not wise to go.

INDIGNANT CITIZEN

A letter has been received from "Indignant Citizen" in answer to "Also a Citizen" complaining of what he characterizes the "outrageous prices" charged for hair cutting. We cannot publish his letter because he has omitted the one thing necessary for entry to The Letterbox. It is to sign the name of the writer, not necessarily for publication but as a guarantee of good faith. However, we pass on the word that he says his hair needs cutting but he cannot afford the price.

SYMPATHY WITH LINDBERGH

All the world sympathizes with Colonel Lindbergh in the loss of his child. Everyone hopes he will yet recover the kipnapped little one, even if it is at great cost.

In affairs of this kind there is no distinction of nationality. Tariff walls do not keep out interest in each others affairs and each other's people. Lindbergh belongs as much to Canada today as to the United States for the Canadian people have felt keenly his loss and hoped with him for a speedy recovery.

The time will come when there will be no tariff walls to annoying immigration restrictions, even separating man and wife because they happen to be citizens of different about annoying each other as neighbors are today in Canada. The unifying work is going on rapidly and in about two or three generations from now conditions should be considerably improved in this respect.
