NATIONAL MOURNING

Impressive Yet Simple Rites Solemnized For Sir Arthur Currie, Thousands Taking Part

Tributes General

Funeral in Montreal—Memorial at Westminster Abbey in London And Toronto

MONTREAL, Dec. 9: (CP)—There were cold winds and wintry skies around Christ Church Cathedral here as impressive yet simple rites marked the funeral of Sir Arthur Currie, principal of McGill University and commander-in-chief of the Canadian Army Corps in France during the last two years of the Great War. It was the fifty-eighth anniversary of the birth of the great Canadian soldier.

Following the service in the cathedral from which thousands were

turned away and which was attended by the Earl of Bessborough, representing the King, Prime Minister R. B. Bennett, W. D. Robbins, United States minister to Canada and many other prominent dignitaries and officials, the casket was borne on a flag-draped gun carriage through streets crowded with many more thousands to Mount Royal Cemetery where interment was made. Students of McGill University marched in a body as did also ex-service men while military bodies also participated.

There was a seventeen gun salute and "The Last Post" was sounded as the remains were lowered into the final resting place.

LONDON AND TORONTO
LONDON, Dec. 9: (CP)—Simultaneously with the funeral service in Montreal, a memorial service was held in Westminster Abbey in honor of the memory of Sir Arthur Currie. There was a large attendance of prominent Britishers and Canadians.

TORONTO, Dec. 9: (CP)—Toronto joined the rest of the Dominion in national mourning for Sir Arthur Currie. Thousands attended a memorial service held here.

Another Test Run

The Secony-Vacuum Corporation of New York conducted a test run of many makes of cars on a route through the Peace River Country, Alberta, touching at Edmonton, Saskatoon, Moose Jaw, Regina, North Portal and down through the United States and on into Mexico. The leading car was a Ford V-8 Fordor, owned by the Secony-Vacuum and bringing up the rear was a V-8 Cabriolet which was driven by the Secretary of the Expedition.

Included in the tour were a Chevrolet, Buick, Oldsmobile, LaSalle, Cadillac, two Pierce Arrows, G. M. C. truck, Studebaker, Pontiac, and other makes, as well as two Fords.

It is interesting to note that it was reported on the arrival of the caravan at Edmonton from the Peace River Country that the V-8's were the only units which made the round trip through mud without having to be towed. On a close check we find one of the V-8's travelled ten continuous hours in low gear, the temperature never exceeded 140 degrees and gasoline consumption was one gallon to ten miles while running in low gear. All the other cars had boiling radiators and required repeated additions of water.

VIEWS OF FARMER'S WIFE

Editor, Daily News:—

May I ask for a little space in your paper on the subject of "Buying at Home." I lived for several years in the city of Prince Rupert and, while living there, learned to send for my needs to the mail order houses. In my opinion it is a lot the storekeepers' fault that the people send away for their goods. Some nine years ago, when I was new at Prince Rupert and had to buy my first pair of shoes I happened to be passing a store that had shoes in the window and there was one pair I thought would be my size. The price was \$4.50. I wanted to buy them but I found they did not fit my feet. The storekeeper showed me another pair that were \$6.50. Now I needed a pair so of course, I told the storekeeper that I wanted the \$6.50 ones, but I only had \$5 in my purse. The storekeeper was keen on making that sale so he asked me to give him the \$5.00 and get the rest of the money, \$1.50, and then he would give me the shoes.

I paid the \$5.00 down as he wanted me to and got my shoes after going home and back again with the rest of the money but it was the first and the last pair of shoes I bought there. Having to pay down the \$5.00 was too much for me. After that I started to send away for my shoes and I know what I get for my money. Yes, I send the money with the order so pay in advance but I can send any goods back and get the money back. Would I have got my five dollars back had I decided not to buy those shoes? I might have but it might have been an unpleasant job.

Then I think the storekeepers do wrong in having their sales. It would be better to have things at a reasonable price all the time. I have seen dress goods in the spring marked \$1.75 per yard and the same goods in a mail order catalogue for \$1.25. Later in the season the Prince Rupert store sold below the price of the mail order house. So why not set the price at the start lower and have everybody buy then and there?

Prints for housedresses are advertised on certain days at four yards for \$1.00. That is 25c per yard. I have bought better goods four years before for 23c per yard at the mail order house. People can buy only on certain days for that price. Other days it would be 30c or maybe more per yard. Would it not be better to set the price at 25c a yard instead of sometimes four yards for a dollar and have people buy whenever they want and let them buy one, two or three or as many yards as they need as one can buy from the mail order house.

One Saturday night I went down town to buy a certain garment that used to be advertised at \$1.00. It was a dollar day but this garment was not in the window. Thinking it might be on a table inside I went in but I could not see it. The storekeeper asked me what I wanted and I told him. Well, I bought that garment for \$1.00. Did I get it at that price because there was a dollar day at that store or was the garment's price \$1.00 at all times? At the mail order house it was 95c. I am sure if people would know they get it at \$1.00 at all times they would not send away for the sake of five cents and wait for the parcel 10 days. The same applies to many other things.

I am living now in the interior and am trying to make a living with farming but I find it hard as Prince Rupert people buy too much farm products from the south. The farmers were advised this fall to send their goods to McMeekin, the wholesaler but, in shipping to him, we do not know what we get, as it seems he has to sell at any price to compete with other wholesalers who get their vegetables from the south. If he can sell, he gets his 10%. If he can't sell on account of the southern products where do the farmers up here come off? Now a lot of the farmers buy their groceries at Prince Rupert but do the farmers around Vancouver do that?

Two days ago there was a train with special rate and only 96 persons took advantage of it. Very few were farmers. If the farmers had any money I am sure the number would have been much larger. Many a farmer's wife who does not get away from the farm often would sure have liked to use that special rate and visit Prince Rupert. Everybody knows how women like to shop but, as there is no money or very little, well the most necessary shopping is done by mail order and not at a visit at Prince Rupert.
