SUMMER SHOES for Summer Weather

We have a large stock of summer shoes including ladies,' misses,' men's, boys' and children's running shoes, beach shoes, tennis shoes and oxfords. We are offering these at 35% lower than they can be purchased elsewhere. This is made possible by the fact that we bought at such low prices when footwear was at its lowest and manufacturers were anxious to unload.

Men's Tennis or Running Shoes, Boots or Oxfords, all colors. Prices—
$1.10 to $1.45

Man in the Moon

There is disturbing holiday news. The election is to be held in October.

Mackenzie King spoke from a motor car without an engine over at Oak Lake, Man. He designated it a "Bennett Buggy."

The Anyox Herald says the Rolston nomination "looks fishy." Wonder what that means? Does it mean scaly or slimy, or cold, or slippery, or jumpy, or dumb, or is the writer thinking of a fish story which is often grossly exaggerated. Will Mr. Moss please explain or must we appeal to Mr. Rolston?

The Liberals sure are fighters. They engage in a game of fisticuffs at North Vancouver and choose two candidates instead of one. They have a little spat down at Dewdney where Reeve Sol Mussallem was put forward as a candidate. They are just rearin' to go and can't hold themselves until election time.

Youngsters Are Providing Their Own Playground

Under the leadership of T. Ross Mackay, the well known benefactor of that part of town, youngsters of Section Seven are providing themselves with a playground at the corner of Eighth Avenue and Conrad Street opposite the Ridley Home. What was an unsightly mud hole is being filled in and is expected soon to be a popular venue for community sports. In one working bee on Thursday evening of this week, fity-three youngsters turned out and moved no less than fifteen yards of earth.

Halibut Business Fairly Heavy During Week—Little Change in Salmon Situation—Recent Work at Dry Dock

The week ending yesterday was a fairly heavy one for volume of halibut landings at Prince Rupert, a total of 538,700 pounds being brought in during the period of which 240,700 pounds was from Canadian vessels and 298,000 pounds from American. Prices during the week remained at a steady level with the top price of the week for Canadian fish being 5.3c and 3c which the Kaien and Rose Spit received for catches of 22,000 pounds in each case while the low bid was 5c and 3.25c which numerous boats were paid. For American fish the high price of the week was 7.3c and 4c which the Zarembo received for 18,000 pounds and the low 6.5c and 4c which was paid in a number of cases.

For the 1933 season up to and including yesterday landings had reached a total of 8,614,200 pounds as compared with 8,119,650 pounds at a corresponding date last year. The Canadian total for this year to date was 3,928,200 pounds in comparison with 2,683,250 pounds last year while American vessels had brought in 4,686,000 pounds as against last year's 5,436,400 pounds. Thus it can be seen that this season's increase is more than accounted for by the greater production of the Canadian fleet, the landings of the American vessels this year being far below 1932.

The sockeye pack for the present season on the Skeena River up to the end of last week had reached a total of 13,774 cases whereas the pack up to the end of the week previous had been 8,652 cases. The Naas River pack had been brought up to 5,652 cases from 4,349 cases at the end of the preceding week. For Rivers Inlet the pack up to the same period had reached 40,566 cases, that for Smith's Inlet 28,599 cases, for the central area 20,228 cases and for the Fraser River 16,324 cases.

Latest reports on boat averages for the gillnetters of the district show that Skeena River fishermen have been averaging fifteen to twenty sockeye per day during the past week and thirty pinks. The sockeye average for the Naas River has been twenty fish per boat and pinks fifty. Rivers Inlet fishermen have been averaging sixty sockeye and those of Smith's Inlet and Bella Coola from twenty-five to thirty. There has been a marked falling off during the past few days in the sockeye run in the southern areas of the district and the run will probably be pretty well over by next week in the Rivers Inlet, Smith's Inlet and Bella Coola divisions.

Recent work to be carried out on the pontoons at the local dry dock has included the docking of Capt. Hans Underdahl's halibut boat Covenant for examination and repairs to a damaged keel, cleaning and painting as well as minor repairs to the Cape Beale, Sea Maid and Lysekil, clutch and engine overhaul of the Ternen. The old snagboat Bobolink was docked for painting before starting on her new work as a commissary and camp scow on the trolling grounds while the Royal Fish Co.'s power cruiser Arranmoore, skipper of which is Capt. Pete Lorenzen, has had a new engine installed. Steelworkers at the yard had the job recently of repairing part of a ball mill for the Premier Gold Mining Co.

Capt. Paul Armour, popular head of the Armour Salvage Co., has been kept busy this week playing "mine host" to several prominent coast yachtsmen with their imposing craft. On Monday, Capt. James Griffiths, president of the Coastwise Steamship & Barge Co., with his Sueja III, and John Barrymore, noted screen actor, with his beautiful Infanta, were here at the same time, both being Alaska-bound. Then on Wednesday afternoon the handsome sailing schooner Fandango, having on board her owner, C. E. Hoffman, Pasadena millionaire, and party, put in for the night, being back here again yesterday following a run to Ketchikan to let off some of Mr. Hoffman's guests who are leaving here for the south today by steamer. After a pause here of a day or so, the Fandango will leave again for the north for a more leisurely cruise of Alaskan waters. These were only the three most important of a number of other visiting yachts which have been here during the week.

The Canadian Can Co.'s fine service boat Cancolim, Capt. Bill Thomas, which has been doing a good deal of running around to cannery points in district waters during the past two or three weeks, was here again yesterday afternoon and spent the night tied up at the floats of the Pacific Salvage Co.

Dr. L. W. Kergin, accompanied by his daughter, Edith, and son, Allan, was among recent visitors from here to Lake Khtada, making the trip in his power cruiser Aledor. With every succeeding visit, Dr. L. W. becomes a booster of increasing enthusiasm for this popular resort, valuing its scenic splendor, if anything, above its angling possibilities. And it was surely grand on this latest occasion, declares the popular local M. D., who says that, if there is anything more delightful in the world than a sunshiny morn in June, it is one of those splendid angling dawns in the peace, solitude and grandeur of Lake Khtada with one or two genial companions along and the fishing good. He has seen a good deal of the world, at that, and should be able to judge.
