ALL ARE RESPONSIBLE

It is difficult to see how the men who supported the Tol- something about the independent ter months. mie Government up to the final session of its administra- group. He did and got fired. tion can now say they are not in agreement with the Tolmie policies and are opposed to him and his leadership in the present election campaign. If Tolmie is so very bad now he must have been bad then. While we do not believe any party or group can remain static, a revulsion of belief on the part of a number of ministers of the crown looks more like personal self-seeking than a real change of heart.

We share the belief with thousands of others that all the former ministers of the Tolmie administration are equally responsible for the acts of the Tolmie Government and also for its inaction. Because of that we cannot think that the people of the province will now vote into power the men who made a failure of the government during the past few years.

BE SURE TO REGISTER

In order that a person may vote at the coming election on November 2 it is necessary that his or her name be on the list of registered voters. Anyone not already registered should do so next Monday, the only chance they now have. In order to register it is necessary to appear in person. This is important.

THIS MODERN WORLD

The world of business becomes more and more complex; the boy or girl who enters it without training is under a handicap. A systematic Savings Account, growing at compound interest, will assist you in giving your child a favorable start in life

MacFarlane, su-* in the ordinary way since that * | perintendent-engineer of the uni-+ time should also appear in per- +, versity, and everything will be in

The cement sections will be resurfaced with gunite, a cement plaster, and then finished with a waterproof aluminum paint. New and more comfortable seats have been installed and those in the eight centre sections will have back rests. California redwood will be used throughout for it has been found after tests made by McGill authorities during the last two years to stand up under the varying weather conditions of this part of the continent better than any other wood. It is light, durable, requires no paint and weathers to a deep shade of reddish brown. All seats will be held in place with iron instead of wood supports and will The office boy thought he could be removable if it is deemed advis-
