Persistent Headaches

and Sleeplessness Tell of Thin Blood and Exhausted Nerves

You are easily tired. You do not enjoy your meals. You are nervous and irritable. The blood is thin, the nerves are starved and hence the headaches and bodily pains. Be warned of an approaching breakdown.

No medical treatment can be of much real help to you which does not enrich the blood. Because it does positively make the blood rich and red, Dr. Chase's Nerve Food restores the vigor of the nervous system and removes the cause of these symptoms from which you are suffering.

Good, restful sleep, improved digestion and freedom from headaches will soon convince you that this treatment is restoring your health and happiness.
