DEFINITE TREND TOWARD IMPROVEMENT, SAYS STEVENS

Globe Flyer Succeeds In Crossing Atlantic and Lands At Moscow

Arrives at Capital of Soviet Republic Three Hours Ahead of Post and Gatty—Nearly Forced Down in Ocean and Made Stops in Norway

MOSCOW, June 5: (Canadian Press)—Three hours ahead of the Post-Gatty time for the distance so far, James J. Mattern, young Texan, who is making a solo attempt to break the flight record around the globe, arrived here at 7:50 this morning, fifty-one hours and thirty-seven minutes out of New York and with probably the most hazardous part of his trip behind him.

Following his successful crossing of the Atlantic Ocean, Mattern was first sighted over Ireland Sunday morning. The same morning he landed at 4:15 on Jenfruland, an island off the south coast of Norway, taking off eleven hours later, following a much-needed rest, for Oslo, Norway, which point he left for Moscow a few hours later. He planned to make a stay of only two hours here and then proceed via Vladivostok, Nome and Fairbanks in continuation of the flight to New York.

Mattern reported, on arrival here, that on Saturday night he ran into a heavy storm on the Atlantic Ocean as a result of which ice was formed on the wings of his plane, forcing him nearly to sea level and driving him off his course which caused him to make the landings in Norway which he had not contemplated.

General Manager

H. J. Humphrey, newly appointed general manager Eastern Lines, Canadian Pacific Railway, with headquarters in Montreal, succeeding J. J. Scully, who relinquished his post on account of ill health after many years service. Mr. Humphrey was formerly assistant to Mr. Grant Hall, Vice-President.

Resignation is Acknowledged

Premier Tolmie Has No Comment to Make on Withdrawal of Mr. McKenzie

VICTORIA, June 5: (Canadian Press)—Premier S. F. Tolmie had no comment to make on Saturday when he acknowledged receipt of the resignation from his cabinet of Hon. W. A. McKenzie, minister of mines. He stated that he would recommend acceptance by the Lieutenant Governor of the resignation. No immediate move has been made to choose a successor.

CONTINUING OF RELIEF

Government at Ottawa to Continue With One-Third Contribution to Municipalities

VICTORIA, June 5: (Canadian Press)—The federal government is continuing its one-third share of direct relief within the cities of Victoria and Vancouver and Saanich municipality. Hon. R. W. Bruhn, minister of public works, announces following receipt of information from Hon. W. A. Gordon, minister of labor at Ottawa. Other districts will be given consideration when their financial statements are received at Ottawa.

WON QUARTER MILLION

LONDON, June 5: (Canadian Press)—W. N. Sante-Crimp of London, holder of Hyperion, winner of the Derby, in the Calcutta Sweepstake, won \$250,000.

Mountain Sheep Are Quite Tame

When it's meal time in the Rockies, mountain sheep usually stick to the sticks, but game warden at Banff have won the confidence of a few. Now they regularly visit for vittles.

POWER FOR PRESIDENT

United States Chief Executive Can Put Trade Treaties Into Operation

WASHINGTON D.C., June 5: (Canadian Press)—Speaker Rainey told newspapermen late last week that the proposed tariff bill, as last drafted, would give President Roosevelt power to negotiate and put in operation, without first receiving Senate approval, reciprocal trade treaties with Canada and other nations.

Local Sawmill Is Being Closed

Machinery From Seal Cove Plant is Going to Georgetown

With the announcement last week that the Big Bay Lumber Co. was permanently closing down its sawmill at Seal Cove and that W. R. McAfee and S. E. Sunbury would establish a box factory at Georgetown, dismantling of the local plant is expected to be soon under way. Much of the machinery is to be moved from here to Georgetown. Lumber in the mill yards here is also being cleaned out, much of it being cut into box lumber.

Pioneer Realty Operator Passes

John Binns Johnson Dies in Vancouver at Age of 70 Years

VANCOUVER, June 5: (Canadian Press)—John Binns Johnson, aged 70, pioneer real estate operator, died here on Saturday.

READY TO TAKE AIR

Capt. and Mrs. Mollison Prepared To Take Off Today if Weather Was Suitable

Long Flight

British Flying Pair Essaying Trip Which Has Never Before Been Attempted

LONDON, June 5: (Canadian Press)—Everything was in readiness for the trans-Atlantic flight of himself and Mrs. Mollison to New York, said James A. Mollison, British flying ace, today but he feared that weather would be unsuitable for a start and that he would have to postpone the take-off from today.

"Our chances of making the flight are ten to seven," Mollison said. "If we get through it will be our last distance flight. We can't continue to gamble with our luck indefinitely."

The Mollisons are to attempt a flight which has never previously been essayed, namely from Croydon to New York, where they plan to rest one full day, then hopping off back across the Atlantic Ocean to Bagdad and back to Croydon, twelve thousand miles in all. Their original plan was to hop off at noon today.

It is planned to make the flight in the two-engined plane "Seafarer" which the flying couple tested last Wednesday in a flight during which they circled south-eastern England.

ASTORIA MILL OPERATING

ASTORIA, Oregon, June 5—The Astoria Box Co., which provides this city's largest individual payroll, is resuming operations at once, it is announced.

SAWMILLS ARE BUSY

Gratifying Resumption of Activity in Prince George District Reported

Considerable resumption of activity in the sawmilling industry in the Prince George district is reported by Harold McEwen, C. N. R. district freight and passenger agent, who recently paid a visit there.

Mr. McEwen reports that sawmilling operations have been resumed at the plant of the Eagle Lake Sawmills Ltd. which has been closed down for three years. The planing mill had been run spasmodically in the meantime.

Gale & Trick have resumed cutting at Hansard in a smaller mill replacing one which was destroyed by fire some time ago.

The Fraser Lake sawmill at Fraser Lake is also cutting again after a suspension of several years.

CREATION OF PEERS

King's Birthday List Includes Honors For Many of His Subjects

LONDON, June 5: (Canadian Press)—Four new peerages, one privy councillorship, two baronetcies and more than forty knight-hoods appeared in the list of King's sixty-eighth birthday honors this year. The honors covered a wide field of public services, literature, science and drama. No Canadians were included among the honored.

The new peers are Major-General J. E. Seely, who commanded the Canadian Cavalry Brigade in France during the Great War, Rt. Hon. George Lane-Fox, Sir Edward Tillye and Sir Samuel Balmer.

Minister of Trade and Commerce Says General Conditions Are Better

Arrives in Vancouver to Welcome Delegates to Pacific Science Congress—Will Meet Executive of British Columbia Conservative Association

VANCOUVER, June 5: (Canadian Press)—There is a definite trend toward an improvement in general conditions, Hon. H. H. Stevens, minister of trade and commerce, stated this morning on his arrival from Ottawa to welcome the Pacific Science Congress, which is now in session here, on behalf of the federal government. "Too much attention is being paid to the New York stock market in judging the state of business," declared the minister. "The thing to gauge this by is commodity prices and, in this connection, things look promising."

Mr. Stevens will spend the next few days on the coast and on Saturday will meet the executive of the British Columbia Conservative Association at Victoria.

SCIENTISTS IN SESSION

Representatives From All Parts of World in Attendance at Gathering in Vancouver

Many Speakers

Wide Variety of Subjects—Victoria-Nanaimo-Vancouver Cruise

VICTORIA, June 5: (Canadian Press)—With two hundred delegates present representing all parts of the world, the fifth Pacific Science Congress is now in session here and will continue for ten days. Having been officially opened by Hon. J. W. Fordham-Johnson, Lieutenant Governor of British Columbia, at Victoria, last Thursday, the convention transferred its sessions to Vancouver today. The delegates travelled from Victoria to Vancouver yesterday on a special voyage of the steamer Princess Louise via Nanaimo where a visit was paid to the Biological Station.

Dr. H. M. Tory, president of the Research Council of Canada, is presiding over the convention and was the principal speaker at the opening session.

Principal speakers at the Victoria sessions of the Congress were Dr. C. W. Howe, dean of the faculty of forestry of the University of Toronto, and Dr. E. C. Sherrard, principal chemist of the United States Department of Agriculture laboratory at the University of Wisconsin, Madison, Wis.

Forestry research in Canada has been grifting without a clearly discerned goal, without organization and without a unified driving force, Dr. Howe charged. It was, he said, far behind other research efforts in Canada and "unless the situation is improved soon, we shall be hopelessly in the rear."

Chemical science is on the verge of important discoveries in the field of wood utilization as chemical raw material and an almost unlimited field awaits it, Dr. Sherrard declared. Progress within the next few years, he said, would be rapid.

In Vancouver

Dr. H. L. Shapire of the American Museum of Natural History, New York City, told the Congress at the session here today that North American Indians and the Eskimo have a common origin. Many hundreds of years ago Bering Sea was crossed by adventure. (Continued on page three)

MANY DIE IN WRECK

Fourteen Persons Killed and 116 Injured in French Train Derailment

NANTES, France, June 5: (Canadian Press)—Fourteen persons were killed and 116 injured, many gravely, early Sunday in a derailment of the Paris-Nantes Express train laden with three hundred excursionists enroute to Brittany.

The engineer was arrested. It is reported that he failed to observe signals.
