### Whole Country Alarmed as Earth Shakes and Tidal Wave Sweeps Shore Sending 1500 Small Boats to Sea And Swamping Others

TOKYO, March 3.—More than 1200 persons are known to have been killed in an earthquake and tidal wave and fire which devastated a section of the northeastern seaboard of Honsu Island, the largest island of the Japanese archipelago early this morning. Eleven hundred lives were lost in Iwate alone, mostly north of Miyako, a seacoast town 300 miles northeast of Tokyo. Eight thousand of the flimsy Japanese homes were entirely destroyed. Immediately following the quake which was of long duration and which shook the whole of Japan more or less, there was a tremendous tidal wave which wrecked many homes on the shores and carried to sea fifteen hundred small boats, swamping others. The extent of the losses in this direction is not yet fully known.

### Demands Made Of Government

Delegation From Men Yesterday Presented Document to Agent Following Parade

A delegation from the "Unemployed Councils" yesterday presented the local government agent with a document containing a number of demands upon the provincial government, fourteen in all, the principal of which are that the government shall assume responsibility for destitute strikers and withdraw all provincial police. That those arrested while doing picket duty be released and that intimidation must cease.

The women's organization asked that women receive equal treatment with men, that clothes be provided for unemployed women and children and that children over 15 be given the same relief allowance as adults.

Complaint is made in the document of the inadequacy of relief, objecting to evictions for non-payment of rent or taxes, and abeyance of the law providing for mortgaging the home of a person getting relief.

A copy of the same document was also presented to the acting mayor.

### Banks of Most Western States Closed Today as Result of Proclamations

SAN FRANCISCO, March 3.—The states of the far west generally are without banking facilities today under holiday proclamations made by seven governors. The major part of the deposits aggregating approximately \$3,000,000,000 is tied up in California, Oregon, Washington, Idaho, Nevada, Arizona and Utah.

At Sacramento yesterday the State Legislature refused to ask Governor Rolph to grant a moratorium for thirty days. Governor Rolph said last night there had been no run on any of the California banks. The trouble arose through pressure without the state and not within. The declaration of a three-day banking holiday was to prevent a run and to enable the financial institutions to protect the depositors. Legislation was being asked at Sacramento to take care of the situation. The banks would all act together in the crisis.

### HITLER'S PROGRAM

Twenty-Five Points of Chancellor's Pre-Election Plan Summarized for Busy Readers

### Jewish Antipathy

Radical Changes Proposed With Extreme National Policy With Fascist Tendencies

BERLIN, March 3.—Hitler is in power and all is quiet on the Rhine. Observers in almost every country in the world are watching the progress of the Hitler government in Germany. Some viewed the Nazi leader's accession to the chancellorship with grim forebodings but his actions in quelling communism and trying to restore order have so far ran foul of only his political opponents.

Now that the Hitlerites are at the helm of Germany's ship of state it is interesting to recall the 25 point Hitlerite program summarized as follows:

1. Union of Austria, Germany, and "all Germans."
2. Abrogation of the Versailles and St. Germain Treaties.
3. Restoration of Germany's old colonies or other territories.
4. Denial of citizenship to Jews and all others not of "German blood alone."
5. Treatment as aliens of all those deprived of citizenship under Point 4.
6. All public servants, high or low, to be of "German blood alone."
7. The State to accept responsibility for the welfare of its citizens. "If it is not possible adequately to support the entire population, aliens (i.e. Jews) shall be forced to leave the Reich."
8. A ban on all non-Germanic immigrants.
9. Equal rights and equal duties for all. All must work for the good of all.
10. Abolition of unearned income.
11. "The overthrow of interest servitude."
12. Complete confiscation of all war profits.
13. State ownership of all monopolies.
14. Profit-sharing in all big business.
15. Liberal extension of old-age pensions.
16. Compulsory allotment of space in big department stores to small merchants.
17. Land-ownership reform. First described as complete national confiscation. Later as confiscation of land owned by "Jewish speculators."
18. Criminals, usurers and profiteers to be put to death.
19. Substitution of German communal law for Roman code.
20. Extension of State education system, to benefit poor.
21. State program of maternity benefits, child welfare, compulsory sports and exercises.
22. Creation of an "army of the people."
23. Rigid control of the press, with elimination of all "alien" influences.
24. Freedom of worship.
25. Creation of a strongly centralized government.

Following the declaration of a three-day bank holiday a number of the California schools are to be closed for three days but in the large cities no such action is being taken.

Business is being carried on by means of clearing house certificates until the banks reopen.
