Practically the only business was a discussion of the action of the government in cutting some 100 unemployed off relief within the last ten days and ordering them to the camp at Pen- der Harbor, near Vancouver, First- hand information as to the nature of these camps was furnished by several speakers. A number of residents of the Prince Rupert riding have been somewhat puzzled as to how they should vote. For- merly they had supported a Conservative, preferring the Conservative policy rather than that of the Liberals. But as there is no Conservative candidate they feel at a loss just what to do. To these people it is desirable to point out that Pattullo, if elected, will make an honest effort to bring about a bet- ter condition for labor and industry by putting the idle men to work at reasonable wages as soon as possible af- ter he is elected. He will follow out the Liberal policy as	once the inmates had walked out en masse on account of the condi- tions prevailing. After lively and heated argument the decision of the meeting was that those who have been cut off relief demand reinstatement on re- lief and refuse to leave the court house building until satisfied. The general contention was that jail was preferable to existence work- ing eight hours a day for twenty	with any other form of milk! All these advantages are greatly to be desired in the preparation of both soups and sauces—and when convenience is added to these, you will want to try the recipe for Potato-Spinach Soup, given below —a meal in itself. Anything he says is simply his own opinion and he has to be guided by his leaders, if he should be elected. He has no authority to commit himself to anything except the platform of his party. His party stands for the taking over of all banks and financial institutions and industries and operating them by the state.
