Sweet CORR A PRODUCT OF CANADIAN FARMS

tastes quite so good!

AYLMER Sweet Corn comes to your table as tender and flavourful as the day it was picked. This "fresh-from-the-cob" goodness is made possible by modern canning methods.

You'll never know how delicious corn really can be until you try AYLMER Sweet Corn. Jot it down on your shopping list now-before you forget.

If your paper does not arrive, telephone the office

TOUGH ON CODFISH

Scientist Makes Buttons and Piano Keys From Fish

HALIFAX, April 26: (CP)-Life "From which all heavenly virtues may be a tough proposition for the codfish in a few years. Sought now for its edible qualities, its flesh will "Be very sure that no man will ericks, will be shown this mid-week be in increased demand as the ba- learn anything at all unless he first at the Capitol Theatre. sic material in the manufacture of will learn humility."-Owen Merea thousand and one articles if ex- dith. periments under way here are successful.

and umbrella handles are only a Lavater. few of the articles which can be made from a substance which has been produced from ordinary fish meal at the Fisheries Experimental Station by a process which it is Mary Baker Eddy. hoped to bring down to a commericial basis within the year.

This partial success has been met by Dr. W. W. Johnston, who has! been able to produce an artificial horn from fish muscle which closely resembles the material now used in Ruskin. the production of many articles of everyday use.

Strewn around the laboratory where the young scientist has been working for five months are little lumps of a hard, translucent substance with a yellowish or dark brown tinge. Some of them have been produced from cod, others from hake, pollock, cusk and skate.

Even Dog Fish

Even the hated dog fish, bane of Under the auspices of the Canaif the experiments are successful, last night. Although Dr. Johnston has not as yet been able to produce a good and prize-winners were: ladies' FOLLOW OUR

Rushwood was master of inuscle meal, with a plasticizing ceremonies for the evening and a agent and subjecting the resultant ladies' committee was in charge. mixture to a moderate temperature and high pressure.

From the process emerges a product which will be available for many purposes if its manufacture can be made commercially feasible. With this in sight, Dr. Johnston is now concentrating on the problem of cutting down the cost of producing the new material.

If he can succeed in bringing it down sufficiently low, great industrial possibilities are seen for the discovery. In the United States alone, a market of 60 000 tons anqually exists for the product from which buttons are now made, and it commands a price of 63 cents per

So it may be that before many years Nova Scotia's fishermen will have found another market to bolster up the present small demand for their catch and Nova Scotia will be the location of a new and growing industry.

"There is no real money made out of writing books and it should-Loon.

VETERAN IN

Pauline Fredericks Featured in Picture "Self Defense"

Presenting that superb veteran of the stage and screen, "Self Defense," a melodrama starring Pauline Fred-

Miss Fredericks, who has been in many screen successes, is said to number her performance in "Self "He has learned much who has Defense" as one of the finest of

> Although she is supported by such excellent players as Claire Windsor, Theodore Von Eltz, Barbara Kent, Henry B. Walthall, Robert Elliott, Jameson Thomas, George Hackathorne and Willie Fong, the screen adaptation of Peter B. Kyne's story was designed primarily for Miss Fredericks, and it is her story from start to finish.

Miss Fredericks is cast as the elderly and likable proprietress of a Canadian Northwest gambling saloon, who is forced to various tensely dramatic and sometimes uproariously funny subterfuges to hide, from her highly educated finishing school daughter the true sources of her income.

Much interest has been taken in ne dancing and fancy dress contests which started some nights ago and the finals in which will be staged tonight and tomorrow
