PEOPLE WILL DECIDE

Premier Bennett is to be congratulated on his decision to refer the question of uniting the railways to the people of Canada. One of the railways belongs to them and they are much interested in the success of the other.

So far as Prince Rupert is concerned we feel pretty sure there would be a large majority against uniting with the C. P. R. The railway people who live here seem to be practically a unit in favor of continuing the present system. So far there has arisen no local champion of a union.

PRETTY TOUGH WORK

These are days when the fishermen really earn their money and a lot more. When the weather is bitterly cold and the men have to work on deck and get the full force of the wind it is a job no one will envy them. All are glad when they hear that the price of fish is up, for every dollar the fisherman gets is money he has worked hard for and he deserves the highest possible pay.

GIVING DOES NOT HURT

During the war, people were again and again asked to "give until it hurt." That was all right for war time. Now people are being asked to give something which does not hurt. They are being asked to hand out a few of the spare volumes from their libraries, in order to fill up the gaps in the shelves of the public library. Helping such an institution will prove a source of great satisfaction to the donor and give much pleasure to many readers who are not able to purchase books for themselves.

140 People Killed and Thousands Injured as Result of Disaster in Los Angeles and Nearby Towns

as rapidly as possible. Help was summoned from Long Beach where it was reported that the city was on fire and the response was immediate. Martial law was declared there and very soon the naval vessels lent their aid. Los Angeles people who had friends at Long Beach tried to get there but were stopped by the police and turned back. The crowding in of people from the outside hampered the efforts of the authorities.

Throughout last evening and on into the night radio stations issued bulletins, some of which contained exaggerated reports of the fatalities. Warnings were issued to the people to remain at home and not add to the troubles of the authorities.

Pains Around Her Heart

Tired Out After Doing Housework

Mrs. Henry Banek, Muriel Lake, Alta., writes: "Last fall I had had pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

The Pursuit of Truth

(By Rev. W. D. Grant Hollingworth, B.A.)

"I do not know," said Professor W. G. Sumner, recently, "whether it is possible for us ever to arrive at a knowledge of 'the truth' in regard to any important matters. I doubt if it is possible. It is not important. It is the pursuit of truth which gives us life, and it is to that pursuit of truth that our loyalty is due."

Some people, of course feel that they have arrived at the ultimate truth about many things, the present, the future, heaven, hell and many similar things. Such people are fortunate perhaps. But for many of us we have not found truth so easily. "Truth lies at the bottom of a well," says an old proverb. It is for many of us hard to come at for the well is deep and we have nothing to draw with. Yet the pursuit of truth is the inherent desire or wish of human nature.

In our pursuit of truth we run counter to many problems. What we think to be truth today we learn to be either falsehood or only a partial truth tomorrow. And so we are apt to despair or to cynically observe as did one of old, "What Is Truth?" In all our search we are bound to come to one conclusion. Truth is personal. The light by which we seek it is our own light. It was Jesus who said, "I am the Truth," thereby indicating that truth is personal and that in faithful pursuit will we find not only life but also the goal of life.

Especially today in an age of changing attitudes and values do the words of Jesus come home to us. "I am the way and the Truth and the Life." He is the Way the Goal, and the guide of our pilgrimages.

Furthermore he spoke "as one having authority." Is not this note of authority one of our greatest needs now? He not only spoke the truth. He was the truth. He was the revelation of perfect manhood. He was the self revelation of God. "Ye shall know the truth and the truth shall make you free."

ORIGINS OF OUR PEOPLE

English Predominate in Prince Rupert With Scottish Second and Scandinavian and Irish Following

The Dominion Bureau of Statistics has just issued a booklet on the racial origins of the people of Canada. This shows that in Prince Rupert people of English origin lead in numbers with Scottish second and Scandinavian third. The numbers are:

Table with 2 columns: Race, Number. English 1682, Scottish 1402, Scandinavian 1046, Irish 619, Chinese and Japanese 390, Italian 190, French 171, German 166, Other British Races 97, Austrian 59, Dutch 56, Ukrainians 53, Indians 53, Finnish 50, Polish 30, Russians 30, Belgians 18, Hebrews 16, Czech-Slovakians 11, Roumanians 11, Hungarians 3, Other European Races 149, Other Asiatics 36, Unspecified 12

Reduction of Ten Per Cent at Hospital

nurses, to go into effect on April 1, 1933. The finance committee brought in a recommendation cutting all the wages except the cook, assistant cook, the pupil nurses and the day orderly 10%. A general discussion followed the recommendation, the general trend being that in fairness to all concerned it would be advisable for the board to make a general reduction instead of singling out certain ones for the cut.

The finance committee made several other suggestions with regard to economy. It was suggested that the workmen's compensation be discontinued for the time but the board thought that this was one item on which they could not make any reduction. A suggestion that a small plant for the distilling of water be fixed in the operating room so that the hospital could make its own distilled water, as now they spend over \$4 a month for it. This was left in the hands of the house committee.

The question of the rate which the hospital paid the Power Company for light was brought up for general discussion. When the city had charge of the lighting system the hospital was given a special rate but now they were paying by the regular metre rate. It was thought advisable for the finance committee to look closely into the matter and see if some reduction could not be made. The matter of installing new power connections for the electric heaters was left in the hands of the house committee.

BASKETBALL LAST NIGHT

The C. N. R. took the Grotto into camp in last night's regular league basketball fixtures played in the Auditorium 44-28. The Grotto had the edge on the C. N. R. in the first half but slackened in the second half and let the Railway Boys drop in baskets at any time they wanted to, consequently the one-sided score.

In the girls' game the Comets defeated the Amazons 14-6 in a one-sided game. The Comets are now tied with the Cardinals for league leadership in the second half.

In the intermediate fixture the Tuxis completely whitewashed the Merchants 50-29. This victory gives the Tuxis a fighting chance for league leadership against the Warriors.

The Japanese took the leading Scouts into camp in the Junior game by a close margin of two points, 18-16. The boys played a good game and there was little to choose between the two teams.

PROTEST AT CONDITIONS OF STRIKERS

Trades and Labor Council Pass Resolution at Regular Meeting Thursday Night

At its regular meeting Thursday night the Prince Rupert Trades and Labor Council passed a resolution protesting against the action of the Granby Company in evicting the striking miners from their homes at Anxox without giving them an opportunity to discuss the situation with their employers.

They also objected to the sending of battalions of police to Anxox instead of having the labor department take the matter up and try to arrange a settlement.

A third protest was made against the closed town policy, which makes it impossible for men to organize except in a surreptitious manner as has been done recently.

Confidence will be rebuilt quite as much by the helpful act as the favorable balance sheet—Owen D. Young.
