SUBSIDIZED PRESS

T. J. Shenton, C. C. F. candidate in Atlin, in a speech made at Stewart, lays himself open to criminal prosecu- when he had been asked by Mf. grounds. Next week the club will tion by stating that the Daily News is subsidized by T. D. Pattullo. It is a statement common to persons who do not know what they are taking about but make guesses which they think will be popular. Because the News has been successful and because it occasionally sells advertising space to candidates, space which is open for anyone to buy, is is as good a sport as that, I guess Brown, and exhibited some interquite different from receiving a subsidy.

We suggest to Mr. Shenton that he be more careful of his words when addressing public gatherings. We welcome criticism but object to spiteful misstatements.

Those who know anything about newspaper work realize how difficult it is to secure payment for legitimate services, much less securing subsidies.

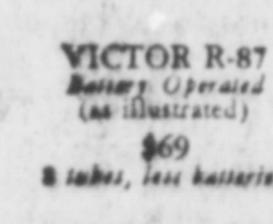

When the News went under its present management party politics. "I am sick and tired over fifteen years ago it was suggested that it was impos- of party politics," he said, and ursible to operate a paper successfully in Prince Rupert without a subsidy. We have proved that this was not correct.

We have nothing against Mr. Shenton personally. So far as we know he is an excellent citizen but we know that the person who is always accusing other people of objectionable practices is the one who, if he had the chance, the district to the attention of the would be open to the same kind of abuse. To show that we do not feel very badly at the Shenton accusation, we are Legislative Assembly a sort of comic giving a longer report of his Stewart meeting than the space at our command justifies. We might easily drop this sist to restore order and business report in the waste paper basket but all we have done is methods to the House. He said that to eliminate a few of the superfluous paragraphs. We re- he would devote his attention to ceive no subsidy for publishing the report but as we have a large circulation in the Atlin riding we think the people there are entitled to know what their candidates stand for. We are doing the same for Mr. Falconer.

FOR THOSE

beyond the power lines here's the radio that

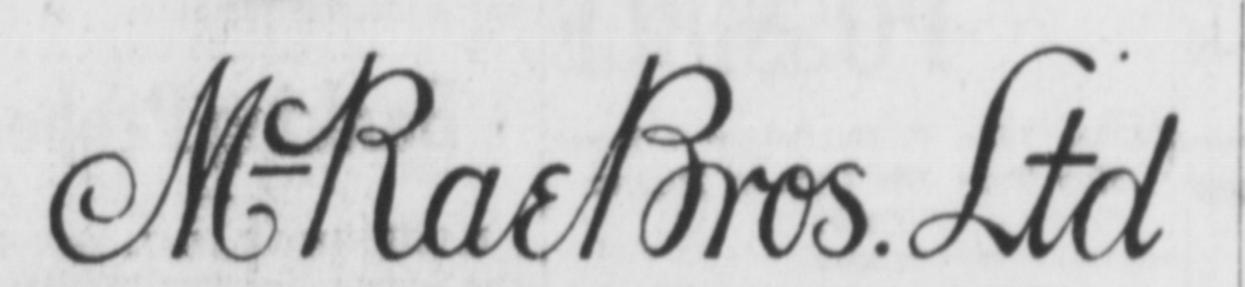

brings "Big City" entertainment . . . always!

RADIO

It's a grand life - the life of the open spaces - but it's nice to keep in touch with what goes on in the cities. Backed by the great Victor name . . . superheterodyne . . . permanent-magnet dynamic speaker . . . equipped for 1000-hour "A" battery . . . Class "B" Amplification — unquestionably this is the radio for you when your job takes you far from the big broadcasting stations.

ged the electors to support independent legislators who would not be tied to any party. He promised, if elected, not to spend his time antagonizing the government of the day but to try to bring the needs of government amicably. He stated that the present system made of the opera and stated that he would asmatters of interest to the district not to "misspent funds, campaign funds and remonetization of silver and other matters of little interest to the general public." He vigorousdenounced patronage as one of the diseases of the body politic and stated that the only remedy was to do away with party politics. He was in favor of a board of works to pass upon undertakings before the public works department started on construction and of purchasing agents for government supplies needed in each district, such agents to be instructed to purchase by ten-

Favors Conversion Loans

To relieve the present burden of debt Mr. Falconer was in favor of conversion loans at low rates of interest, such loans to be offered on the domestic market only. He ridiculed the suggestion put forward, he said, by Mr. Pattullo that four hundred million dollars be borrowed for public works, pointing out that, at 5% interest, this would nearly treble B.C.'s annual interest payments. "The people of B.C. have had enough of Pattullo and his party who loaded us up with sixty million dollars debt on the P.G.E.," he said, and further predicted that, if the Liberals were elected, there would be another election within a

Referring to unemployment Mr. Falconer said that the only remedy must come from the federal government. Financing of public works by the province to relieve unemployment would be prohibitive. There were only three solutions: first, unemployment insurance; seworking hours. Of these, he claimed, the last was the only practical one for his address. at the present time though he was in favor of unemployment insurance when it was feasible.

Premier Meeting

At the meeting held at Premier. James Mitchell acted as chairman. Mr. Falconer delivered substantially the same speech as at Stewart. At the conclusion of his speech the chairman asked Mr. Rolston and Mr. Asselstine who were in the audience to say a few words.

Mr. Rolston said that he was interested in Mr. Falconer's talk. He said that both he and Mr. Asselstine had just returned from trips through the district and each was satisfied that he was going to have a substantial majority. He announced that he would address a meeting at Premier on October 26 and would deal more fully with Mr. Falconer's platform then.

Mr. Asselstine expressed his pleasure at being present to welcome Mr. Falconer to Premier. He said that he noticed how very easy was for men to change their views when things didn't go right and referred to supporters of the Conserwould be abolished under a non- vative party who, instead of standing by their party, changed their designation and came out as something else. He thanked Mr. Falconer for his reference to the legislation passed during the Liberal regime which he stated was one of the reasons why he continued to actively support the Liberal party.

At the conclusion of the meetin cond, the dole, and third, shorter the chairman thanked Mr. Falconer, on behalf of the audience.
