not started cutting yet, while others have the hay cocked and still others have it in the barns. Although there was threat of rain AIR CRASH from cloudy skies during a couple of days, weather has mostly been bright and hot and, generally, ideal for haymaking. On many fields, a second crop of alfalfa is well advanced.

With occasional big stacks of last year's hay still to be seen on some farms to say nothing of what may be on hand in many barns, an overproduction of hay in the valley is quite evident. This condition is causing many a rancher to seriously Big Junkers Plane Hit Down Draft consider the advisability of increasing his beef cattle herds. Certainly, more animals are required to eat NEW HAZELTON, Aug. 8:-Hugh up the feed for which no market is McMillan and Gordon McLennan, available. New Hazelton prospectors, who

Oat and wheat crops are making were in the recent crash at McConexcellent growth with the west end of the valley decidedly ahead of the east end in this respect although general conditions are satisfactory and the outlook very promising for a good crop. Heading out of grains is well advanced and the process of ripening will soon commence if the weather continues:

from death or more serious injury Vegetables and field crops are: doing well but the recent hot days! have meant cool nights and a number of potato fields in certain localiwhich is a notoriously bad hole as ties on the lower levels near Smifar as aircraft are concerned, when, thers and Telkwa have been frosted.
