New Social Era in which Science Rather Than Business Will Play Great Part Predicted by Speaker

(Continued from Page 1)

had been made by the scientists. A noted banker, in a much-heralded statement, had declared that "all research is good for is to make banking hazardous." A financier of equal eminence had said that "science is a peril." What no one had said was where scientific research should be stopped.

Fruits of Scientific Research

Reviewing some of the fruits of scientific research in the course of the past century, Mr. Brocklesby inquired of his listeners in what fields it might be desirable to bring scientific research to a halt. In the field of medicine, he alluded to some accomplishments that had been achieved by biologists, chemists and medical men. Vitamins had been developed to such a point that today no one needed to suffer, through lack of knowledge although, of course through lack of distribution, from dietary diseases. Then there were the chemical regulators such as insulin, for the treatment of sugar metabolism in the dread disease of diabetes; adrenalin, for the treatment of blood pressure; and thyroxine, used for the treatment of cretinism which stunted both physical and mental development. There were such scientific developments for the alleviation of suffering as the variety of anaesthetics in surgery and dentistry, the safe hypnotics for the relief of insomnia, and digitalis for the regulation of the heart activity. In recent years particularly much had been accomplished in the perfection and safeguarding of such aids in the medical field. Through scientific research in the field of chemistry, great strides had been made in the bringing about of immunity from disease and the treatment of such diseases as malaria, dysentery, leprosy, hookworm, syphilis and tuberculosis.

Mr. Brocklesby then referred briefly to the subject of chemistry in civic life by means of which great improvements had been made pos-

sible in the purification of water supplies, the production, preservation and distribution of food, sewage sanitation and industrial poisoning.

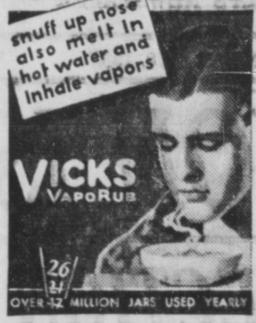

Then chemistry had played an important part in the industrial field. Alloys of metals had insured great strength for structural undertakings such as great bridges and buildings. Stainless steels had been developed and the war against rust had been prosecuted. Then there had been the development of photography, x-ray, movies, vacuum tubes, radio, electrical current rectifiers, incandescent light bulbs (which were four times more efficient today than twenty-five years ago) and ultra-violet ray.

Would it appear to be desirable to eliminate or halt scientific research in any of these fields? Was the scientist to be blamed for the things he had accomplished? Scientists did not reap large rewards for their labors, particularly in the humanitarian fields although, of course, there were the Nobels, the Vickers and the Maxims, who had developed instruments of warfare, and Edison, whose inventions had been largely along the line of comforts for humanity, all of whom had died millionaires. On the other hand, Hertz had died a pauper, Fleming a humble college professor, and Lavoissier's reward had been the guillotine.

"Plato's Empire" In closing, Mr. Brocklesby alluded to the economic ideas of Plato, the great philosopher of 3,000 years ago. Many of the ideas of "Plato's Republic" might well be applied to present day conditions.

At the conclusion of his address, the thanks of the club were extended to Mr. Brocklesby by the president, William Cruickshank. C. D. Morgan of Vancouver was a guest at the luncheon. The club decided to hold the installation of 1933 officers on Monday evening of next week.

DETROIT IN LEAD

Boston Bruins Join New York Rangers For Second Place in Hockey Standing

DETROIT, Jan. 18.—Detroit Red Wings blanked the New York Rangers in a crucial game here last night and moved into the leadership of the American Division of the National Hockey League. At Boston, the Bruins routed the Montreal Maroons and advanced to a tie with New York Rangers for second place in the American Division.

Toronto Maple Leafs, although beaten by the Americans at New York, held a safe lead in the International Division. The Ottawa Senators moved into third place next to the Americans by scoring a close victory over the long-suffering Canadiens at Ottawa.

Last night's scores: Montreal, 2; Boston, 6; Canadiens, 2; Ottawa, 3; New York Rangers, 0; Detroit, 2; Toronto, 1; New York Americans, 3.

Les Canadiens Lead Empress In Billiards

Three out of five games were played in last night's Junior Billiard League fixture between Les Canadiens and Empress, the former taking an aggregate lead of 595 to 440 as a result. Individual scores were as follows:

W. E. Hutson, Les Canadiens, 200; Doug Frizzell, Empress, 94; O. Antonelli, 200; Owen Fisher, 146; R. Pritchard, 195; J. Machelton, 200.

The third game in last Friday night's fixture between Empress and Jewellers was also played last night, Earl Batt winning for the Empress over Chris Perry by a score of 200 to 163. With two games yet to be played in this fixture, the Empress is leading 586 to 415.

United Farmers Approve Action Of Calgary City

CALGARY, Jan. 18.—The United Farmers of Alberta, in conference here yesterday, voted endorsement of the action of the city of Calgary in refusing to pay \$300,000 in exchange on loans maturing in New York.

Making Fast Time in Switzerland

"Berneing" up the trails, we might say. At all events, these skiers are making fast time down the mountainside near Berne, Switzerland, whipping up clouds of snow as they whizz by.

Flashes Win In Hoop Game

Defeated Racketeers in High School Basketball

The Flashes showed their superiority over the cellar-dwelling Racketeers in yesterday's basketball fixture by a one-sided score of 30-17. This was the third successive loss for the Racketeers and they have yet to win a game. Both teams played a speedy game from start to finish but the Flashes had a decided edge in the shooting. Wingham proved a valuable addition to the Flashes while Smith also played a good game. Morrison and Forbes were the pteck of the losers. The Midgets outscored the Bullets in the junior game and, as a result, are in second position in the league standing. The game was ragged in the first half but the second half showed some nice basketball. The Bullets rallied in the dying moments but the Midgets managed to stave them off until full time. The final score was 9-6.

Alaska Game Boat is Here

The motorboat Seal of the Alaska Game Commission with headquarters at Juneau, which is on a patrol of the southern end of the Alaska panhandle, arrived in port last night from the north and will make this port her base for the next few days. Homer Jewell of the Alaska Game Commission is in charge.

SPORT CHAT

ENGLAND IN LEAD

The regular schedule of basketball games will be carried out tonight with the added attraction of C. N. R. A. playing in the senior game with the snappy Port Simpson basketball club. A torrid battle may be expected as both teams are determined to win this game to further prove their leadership in Northern British Columbia. Brick Skinner will referee the senior game which should insure a fast and snappy brand of play, the players knowing from experience they have to play basketball when Brick handles the whistle.

Runs Came Freely For Invaders in Second Innings of Third Test Match

ADELAIDE, Aust., Jan. 18.—(Canadian Press)—Runs came freely for England yesterday in the second innings of the third test cricket match with Australia and, at the close of play, the invaders had 296 runs for six wickets, giving them a lead of 500 runs so far in the match. A powerful batting display by W. R. Hammond, Gloucestershire professional, featured the innings. He notched eighty-five runs.

Today's Play

Faced with the task of scoring at least 532 runs to beat England in the third match, Australia went to bat today and, when the stumps were drawn, had put together 120 runs for loss of four wickets. Don Bradman was the only one to make any stand, knocking up 66 runs before being caught by Verity who was bowling.

British Sportsman Victim of Injuries In Fall of Horse

LONDON, Jan. 18.—(Canadian Press)—Capt. R. E. Sassoon, amateur rider and millionaire sportsman, died yesterday from injuries suffered when his mount fell last Wednesday.
