HANGING ON TO OFFICE

Quite a little stir has been caused at the provincial capital by an announcement that it was probable the Tolmie government would not resign until after the legislature met next spring. The Colonist, the Conservative organ, states editorially:

"Whatever the verdict of the province it is competent for the government to remain in office until the new legislature has met and given a definite and final decision on the merits of the administration. The legislature is the legitimate organ of the people."

The Times, the Liberal evening paper, takes issue and closes a rather lengthy article with the following paragraph:

"Unfortunately for this unique aspiration of the government, there are certain insuperable obstacles in the way of its realization. One of them happens to be the lieutenant-governor, who has the power of dismissal at any time, and whose course must be determined by the will of the electors as expressed at the polls. If that decision should make it clear that the government and its policy have been rejected by the electors—and the returns of the ... show that—it will be his duty to call upon the leader of the party with the most elected representatives to form a government. He can not wait six months of log-rolling and manipulation without transferring the issue from the defeated government to himself, since in that case he would be a party to a proceeding which would be unexampled since pre-Confederation times. Up to this time there are supposed to be seven wonders in the world. There is now another one—a government in a British country which, with only two supporters in an election, believes it can hang on to office almost indefinitely regardless of the will of the electors—and a government whose leader a year ago publicly announced its inability to carry on notwithstanding its control of two-thirds of the legislature, 'the legitimate organ of the people.'"

Street-sweeper Rides in Style

Believe it or not—this road sweeper is chauffeured to his job. John McCullough, veteran sweeper of Hollywood, has an unemployed step-son who "earns his bed and board" by driving the old fellow from place to place in an expensive sedan.

A HIGHWAY TO ALASKA

Plan Evolved to Connect Buenos Aires in South America With Fairbanks

VICTORIA, Aug. 9— Motorists of the future may be able to drive from Buenos Aires, capital of the Argentine Republic, to Fairbanks, Alaska, on the International Pacific Highway, with British Columbia providing an important link, according to Ernest McGaffey, manager of the magazine bureau of the Automobile Club of Southern California, and former secretary of the Vancouver Island Development League, who is now visiting the city from Los Angeles.

Mr. McGaffey is confident that the much-talked of British Columbia-Alaska highway will eventually be built and that it will be a component part of the great international road by means of which it is proposed to link up the continents of North and South America.

The financing of this great highway scheme will be done by the governments of the countries through which the road will pass, in the opinion of Mr. McGaffey.

Through B. C. to Alaska

It was the Automobile Club of Southern California, he said, which first broached the proposal to build an automobile highway from the United States through British Columbia to Alaska, and the same organization was strongly in support of the international highway which will permit motorists to drive from Buenos Aires to Fairbanks. This road is planned to tap Mexico and the Central American countries and would bridge the Panama Canal.

Social Event in Naas Valley

AIYANSH, Aug. 9:—Mrs. B. A. Spencer and Mrs. Louis Forkrud were joint hostesses at a delightful birthday party given in honor of Mrs. C. Weeks at the home of Mrs. Spencer. Covers were laid for twelve. Misses Jessie Weeks and Catherine Phillips cut the ices and Misses Irene Forkrud and Marjorie Weeks poured. 'In the afternoon boating and swimming were enjoyed on the lake, while a dance was held in the evening.

Man in the Moon

Good afternoon. Are you buying in Prince Rupert instead of sending your money away?

The McBride Journal has the following advertisement: "Found—a boy's new cap in the United Church. Only designation mark 'T. Eaton.' If Tim or Tom will call at the Manse, he will receive it." For the information of the Journal we should like to say that Tim is dead but his goods still continue to make the small towns smaller and the people poorer.

Let us talk about something new—the weather f'r'instance.

When the sun is shining bright,
The world seems quite all right
And we're happy;
But when the skies are lowering,
People go round aglowering
And it's "Make it snappy."

Jake was wondering what made the clouds so heavy this morning and he came to the conclusion that it was because General Balbo and his squadron had left the continent.

When is a Conservative not a Conservative? Give it up? When he's an independent.

Some Target To Throw At

Boys, oh, boys! Any pitcher, rookie or veteran, who couldn't get 'em over with a mitt such as this to shoot at has no business in the box. This camera freak was snapped at Detroit and the backstop behind the glove is Johnny Reiber, the Tiger's youngest catching recruit. And he is some maskman.

The Takla, packing fish for Edmunds and Walker of New Westminster, came in yesterday from the south and awaited orders here before going to the trolling grounds.

One of the bright spots on the waterfront is the flower garden at the entrance to the Imperial Oil dock. It is understood that it is the work of Miss Gertrude McKenzie.

Grotto Went Up Notch in Softball Beating Empress

The Grotto went up another notch in the softball standing and the Empress down as a result of the listless 10 to 2 defeat of the latter squad last evening.

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

IMPERIAL OIL TENNIS CLUB

Excellent Court Built on Waterfront By Voluntary Labor at Small Cost, Used Great Deal

A great many people are not aware that there is on the waterfront a first class tennis court built and kept up by the Imperial Oil Tennis Club. It has 24 members headed by Walter Howarth who is manager and chief factotum. He was largely responsible for its being built.

The court is located right adjoining the Imperial Oil warehouse and on Imperial Oil property. The old cinder court of last year not proving very satisfactory a club was formed in the spring to build a board court on the site. Lumber and other materials were purchased at a total cost of $143 and the boys did all the work themselves except for the staining which required special expert workmanship supplied by Miss Gertrude McKenzie and Miss T. Peterson. The men who gave their services for the manual work were Walter Howarth, Laurie Lambley, Allan Hill-Tout, R. C. Parsons, J. Hartwig, A. Lindseth, I. Fenness and I. Ingirightsen.

A small pavilion was erected and the court was surrounded by fish net to the usual height as a temporary expedient. Later it is proposed to use chicken wire, doubtless to keep the chickens away.

The court is an excellent one and it is being used regularly by the members and their friends.

Famous Jockey Makes Comeback

NEW YORK, Aug. 9:—Earl Sande, who foresook the saddle to train thoroughbreds, is on his way back to the top again.

After a disappointing start with the stable he assembled last fall for Maxwell Howard of Toledo, Earl is riding the wave of prosperity and receiving the cheers of the crowds much as he did during the last fifteen years when he rode to fame and fortune aboard some of America's greatest thoroughbreds.

His stable comprises only six horses but within the short space of six days he won four races with three of them at Empire City. St. Huberts captured two events while Miss Snow and St. Stephen won one race each.
