Maintaining

A Long-Established Position

in Canadian Banking

When the Dominion of Canada was established in

1867, the Bank of Montreal, then already half a century

old, had nearly a fourth of the total paid-up banking

capital of Quebec and Ontario, and more than a fourth

Today it has the same proportion of the capital and

assets of the banking structure of the entire Dominion.

Today, as yesterday, it employs its resources and facili-

ties for the upbuilding of the soundest elements of

Canadian business.

of the banking assets of those two provinces.

As soon as times begin to improve the C. N. R. will again pay its way and gradually will develop into a very profitable property. To dismember it would be fatal to its future. We do not think Mr. Bennett's government would for a moment consider such a project.

LOOK OUT FOR THESE SYMPTOMS OF CONSTIPATION

Get Relief With Kellogg's ALL-BRAN

Headaches, loss of appetite and energy, sallow complexions, and sleeplessness are often warning signs of common constipation. Unless checked, constipation may impair health.

Today, you can get rid of common constipation by simply eating a delicious cereal. Laboratory tests show that Kellogg's ALL-BRAN provides "bulk" to exercise the intestines, and vitamin B to further aid regularity. ALL-BRAN is also a good source of blood-building iron.

The "bulk" in ALL-BRAN is much like that in leafy vegetables. Inside the body, it forms a soft mass. Gently, it clears the intestines of wastes. How much better than taking patent medicines.

Two tablespoonfuls daily will overcome most types of constipation. Serious cases, with every meal. If not relieved this way, see your doctor.

Enjoy ALL-BRAN as a cereal, or use in cooking. Appetizing recipes on the red-and-green package. At all grocers. Made by Kellogg in London, Ontario.

Millions of Canadian and Americans today "are being plunged (Meldelssohn), P. Lien. into misery and penury through our governments trying to pay insupportably high interest rates and gold premiums, and trying to keep alive a hugh pile of debts and over capitalizations which should be cut to a half and quarter if those debts are to be paid," Mr. Cormic declared:

"Money is not a comodity, like wheat and lumber," he continued. "Money is only a token or symbol of goods or wages or property. Unless our governments and financial institutions quickly restore money to its proper function of distributing goods and wages, it is clear as day that the people will be forced to try some other token or inferior system.

"Freed from high interest rates and over-capitalization our capital system, I am certain, is quite capable of distributing the high quantities of food and goods which Many attended a bridge and whist engineers and chemists with their
