MOUNT OLDFIELD ROAD

Much public interest is developing locally in the proposed trail and road up Mount Oldfield, possibilities of which have been investigated by a joint committee of the Gyro and Rotary Clubs and the Chamber of Commerce which, having satisfied itself that such a trail or road can be built on an easy gradient, has now asked the provincial department of public works to carry out the necessary surveys, with a view to having an early start made on the undertaking.

An article published in the Daily News yesterday summarized the investigation and plans which have already been made in connection with the project.

Here seems to be an undertaking upon which relief labor could be used to excellent advantage, providing at a minimum cost a veritable scenic highway for the city. In winter it would be largely used for ascent to the skiing grounds near the top of the mountain while, in summer, it would be a popular climb or drive which would be rewarded, on reaching the top, with a wonderful ocean view for many miles around. There would also be the possibility of some sort of resort being established such as that on Grouse Mountain at Vancouver.

It is a very interesting project upon which it is to be hoped something may be accomplished in the very near future.

TRIAL OF BRITISH ENGINEERS

The plea of guilty entered by W. L. Macdonald, British electrical engineer, whose trial, together with that of five colleagues, opened yesterday in Moscow, was a sensational denouement which may be expected to have an important bearing upon the hearing as concerns the remainder of the accused who have pleaded not guilty to the allegations of sabotage and espionage. It had not been expected that there would be any such development as that involving Macdonald but the suggestion made in official quarters at London that the plea of guilt might have been "the result of five weeks of solitary confinement and the methods of questioning which had been used" may be significant. Serious protest, it is expected, may be made by Great Britain if any methods favoring of the "third degree" were employed in coercing Macdonald to make the admissions which have seriously implicated his colleagues.

EUROPEAN SITUATION

With the four great powers—Great Britain, France, Germany and Italy—reported to be in virtual agreement on the general principles of the MacDonald-Mussolini peace plan for Europe, happy results bid fair to develop from the warlike crisis which was agitating Europe and, indeed, the world a month ago at this time.

If these four nations, with their varied and, in many ways, conflicting interests, can come to common ground on which to rest their differences, a great day's work as far as world peace is concerned will have been accomplished. For this great credit would necessarily go to Great Britain's peace-loving Prime Minister in winning the co-operation in his plan of such statesmen as Benito Mussolini of Italy and Adolf Hitler of Germany.

A SUPREME DUTY

Every man has a primary duty to protect his home, as far as he is able, and to avoid speculative excesses which may end in disaster. A Savings Account is an investment which gives security, regular income and a cash reserve to meet emergencies.

THE ROYAL BANK OF CANADA

Be Optimistic!

(Contributed)

Be optimistic! Get the fear out of your hearts, fear of the unknown. When business is dull, don't stand around looking at the hole in the doughnut. Think some fun into your daily events.

Don't be over-serious, it breeds disease germs just as anger and hate induce cancer, tumor and liver troubles.

Start a hurricane of jollity. Break loose in a thunder storm of mirth. It will clear the atmosphere under the roof.

Light the candle of a new thought and diligently sweep every corner of your mind and you shall find the real happiness.

Put fun into your thinking. Do not take yourself so seriously. Put the red blood of mirth into your daily thinking and take a run down to Rupert where you will inhale the pure air of heaven and see the magnetic and entrancing harbor and superb sunset such as you read about in the Arabian Nights.

Business is picking up and I am holding on to it like a sick nigger holding on to a Methodist church.

The Letter Box

RE LABOR NOMINATION

Editor, Daily News:—

Re your news item that a committee of the Socialist Party of Canada interviewed the unemployed regarding the nomination of a candidate for the provincial election.

The committee was elected at an organized labor mass meeting called under the auspices of the Central Council of Employed and Unemployed held on Sunday, April 9, to discuss the nomination of a labor candidate. It was decided at that meeting to elect a committee to interview the committee of the unemployed and recommend the advisability of giving organized labor more time. The committee only gave a few recommendations to present to their mass meeting.

We, the undersigned, protest against being called a committee representing the Socialist Party of Canada, Prince Rupert Branch.

D. MacPhee, G. Murray, George Lawson, George Howe, Oscar Larsen, Sidney V. Cox (committee).

CHAPMAN IS NOMINATED

(Continued from Page 1)

son, G. W. Rudderham and D. MacPhee were nominated, all except Mr. Chapman declining.

Mr. Chapman thanked those present for their confidence and pledged himself to do his utmost to further the cause of labor, stating that in the past it had been erroneously accepted that labor had no chance of competing in the electoral field but that this was entirely the fault of the workers not being heart and soul behind their candidate.

A finance committee and a campaign committee were appointed.

This being a special meeting, the regular business of the Unemployed Councils was held over with the exception that a committee was appointed to interview the committee from the city council to make joint enquiry into living expenses in this district as compared with other parts of the province.

Billion People Attend Cinemas United Kingdom

LONDON, April 13: (CP)—About 363,000,000 admissions to the moving picture theatres in the United Kingdom last year at a total expenditure of \$215,000,000 is taken as a good indication that the modern commercial cinema is a vastly more important enterprise than many critics thereof may credit. The sum of \$215,000,000 spent on cinemas includes \$35,000,000 in taxes. The average price per admission was about nine pence.

The figures quoted were given at a meeting of the Royal Empire Society by Simon Rowson, a director in one of the big British picture corporations. In the course of his address Mr. Rowson said:

"There were signs of the beginnings of an export trade in British films to the markets of the Empire and to other English-speaking countries. London was again becoming the film market of the world. Reports of every new picture screened in London were communicated to expectant buyers wherever the English language was spoken."

Dr. J. H. Carson, who has been (left) on post-graduate work in Vienna for several months, is expected home from overseas within the course of the next two or three weeks. He intends to resume practice here as a specialist in eye, ear, nose and throat diseases.

MUSHER AT FT. FRASER

Dog Musher Leaves Interior Town Today For Prince George

PORT FRASER, April 13—Slim Williams, grizzled and lean dog musher from Copper Centre, Alaska, who is on his way to the World's Fair at Chicago with an Alaskan joboggan and outfit weighing 300 pounds, after having travelled 1800 miles since he started his long sled trip on November 29, having broken trail most of the way through uninhabited country via Dawson, Alton, Telegraph Creek and Hazelton, arrived here Monday night from Smithers and, after a day's rest, left yesterday for Prince George which city he expects to reach by Saturday night. He is in plenty of time to reach the Windy City by the time the World's Fair opens.

Williams still has eight of his original nine dogs, all huskies with wolf strain. The other dog was killed when the party was attacked by a large pack of famished wolves near Forty Mile, Yukon. Williams shot several of the wolves before driving them off.

The dog team is one of the finest seen by many old dog mushers here.

Williams, a former California man, was all over the southwest states and in Alaska since 1901, chiefly prospecting. He renewed acquaintance with several former Alaskans hereabouts. He states that the route travelled can be made an excellent highway for automobiles and he is a strong supporter of the Alaska Highway scheme.

POULTRY RAISER CONQUERS "ROUP"

Raises Miner's Lintiment As Remedy for Roup or Bronchial Flu

Read this letter from G. Minville, Fort Garry, how he checked Roup (Bronchial Flu) which he broke out among his young hens. "After trying other remedies and obtaining no results whatever," writes Mr. Minville, "I tried Miner's Lintiment. Five to six drops on the tongue and sometimes more, depending on the birds. I am positive that it helped me out a lot." Miner's Lintiment is a tried and proven remedy for sprains, burns, bruises and skin diseases, as well as for Bronchial and Rheumatic trouble. For sale by all druggists.

Boils So Bad

Could Not Work

Mr. Wm. Davyduke, Sault Ste. Marie, Mich., writes:—"Three years ago I was troubled with boils which were so bad I could not work."

A friend told me my boils must be bad and advised me to take Burdock Blood Bitters. I didn't know any medicine could put such a sudden stop to such misery, as one bottle put the boils to an end."

For sale at all drug and general stores. Manufactured for the past 32 years, only by The T. Millers Co., Ltd., Toronto, Ont.

PREECE IS RE-ELECTED

Again Leads Canadian Legion—Semi-Annual Meeting Last Night

The half-yearly meeting of the Prince Rupert branch of the Canadian Legion, B. E. S. L., took place last evening with a good attendance of members. President Jack Preece in the chair.

Election of officers for the ensuing six months resulted as follows: President—J. Preece, (re-elected).

First Vice-President—W. J. Rance (re-elected).

Second Vice-President—R. T. Anderson (re-elected).

Executive—S. A. Bird, S. B. Marshall, C. L. Youngman, H. Killin, R. E. James and D. C. Schubert.

Trustees—T. Silversides, S. A. Bird and J. S. Wilson (re-elected).

It was decided to run a football team in the city tournaments and C. L. Barker was appointed delegate to the Football Association.

Zone Representative D. C. Schubert reported on the activities of other branches in the zone. It is possible that a conference of these representatives may take place in the near future with Prince Rupert as the meeting place.

The Women's Auxiliary has been meeting and, with twenty members already taking part, an active program has been planned.

Application from George J. Dawes for regular membership was approved.
