U. S. MAGAZINES IN CANADA

About two years ago the Canadian government imposed zones on the property, which in a tax on magazines coming into Canada from the United places, carry free gold, and surgests. States. The result has been that the sales have declined something like fifty percent.

A few of the United States magazines are now printing drift south on zone "A," and north in Canada special Canadian editions but mostly they are with further exploration in diamond of the poorer type of literature. They deal chiefly with the drilling and crosscutting from them. love interest or they are "thrillers" and some are de-

scribed as "purple passion" magazines. Pictorial Review, although published in Canada, has it can also change on this property dropped about sixty percent in circulation in this country for better or for worse, and with in the two years. Liberty has gained thirty-two percent the failure to develop commercial and the Munsey books have gained one hundred and three ore on the Province tunnel level, the percent. Popular Science Monthly, not printed in Canada, has, during the same period, gained eleven percent. The largest drops have been made by such outstanding period- taken by an adit from the southwest icals as American Boy, American Magazine, Colliers, corner of the property along zone Country Gentleman, House and Garden, Ladies' Home "B." Journal, Red Book, Saturday Evening Post, Scribner's, Vogue and Woman's Home Companion with the greatest April Halibut loss of all to Literary Digest which dropped eighty-one percent.

The sad part about the change is that, speaking generally, the better class of magazines have been denied to Less Fish Was Handled in Month Canadian readers while the magazines that pander to the passions and prejudices of the people have increased in circulation.

Session Will be One of Heaviest in Years as Far as Time is Concerned-List of Cases

In the matter of time which it is expected will be taken up by the trials, the spring session of the Supreme Court Assizes, opening here on Thursday morning of this week with Mr. Justice Denis Murphy as. the presiding judge, is expected to be one of the heaviest on record in several years.

The criminal case in which E. C. Dawson of Smithers is charged on' two counts of arson is expected to be the longest, taking up possibly the better part of a week. There are bride's parents where a wedding upwards of forty witnesses to be heard and several truckloads of evidence has also been brought from Dancing was then enjoyed at the Smithers for the trial.

In addition to the Dawson case, Mr. and Mrs. Barrie will reside there will be the cases arising out of at 708 Fifth Avenue West. Both the recent "strike" situation at An- bride and groom have resided here yox. As a result of a disturbance at for years and many friends will Prince Rupert, Robert Thomas tender their congratulations and Maryland Carter and Nina Gurvich best wishes. Condition of Big Missouri

Recommendation Made That Further Exploration Work be Carried on at the Property

In view of the renewed interest taken in Portland Canal mines as a result of the improved price of silver the reference to Big Missouri in the last annual report of Consolidated Smelters in regard to the mine is of interest:

"Upon the completion of the diamond drilling in January, no further development was performed; watchmen being in charge of the property." Following a general discussion with Drs. Mead and Jure, Dr. Jure made a further investigation of its geological features and I through the courtesy of the Premier was able to make a comparison of the conditions of the two properties. 5.00 His summary and conclusions are 19: interesting, in that he states that:

"Geological conditions are similar to those at the Premier Mine, with regard to the rock types and structural conditions. The silicified zones are identical in appearance to the zones in which the ore occurs at the Premier." He notes four strong and persistent ore - bearing silicified further development on the Province level in the extensions of the

Dr. Jure also states that, "since the nature of the Premier ore chanproperty could hardly be abandoned without the investigation of a lower horizon, which could be under-
