## WILL HE WIN OUT?

What many people today are wondering is whether Adolph Hitler, Chancellor of Germany, will finally win out in his efforts at becoming the ruling force of the Fatherland. He has undoubtedly put up a brave fight against fearful odds. One writer, telling of conditions as he saw them, remarks that it is a good thing for the world DAVIS CUP and for Germany in particular, that Hitler is leader of the DAVIS CUP Fascist party rather than the Communist.

No matter what political or economic views one may possess he is bound to have a sneaking sympathy for the man who has forced his way through to the front until he finally landed the chancellorship. He is now appealing to the people of Germany to support him and the betting is strongly in his favor unless some untoward incident should crop up. Men of the de Valera, Mussolini and Hiter type appeal strongly to the populace. They feel they really have a mission in the world, a clear aim, and if they have ability to play the part to the end the people will follow.

The nearest to the type in Canada is Captain Ian Mackenzie of Vancouver, but while he has the enthusiasm he probably has not the personality required to enthuse the in the United States-Mexico series populace in his cause. To be a real leader a man must have for the right to meet the winners in brains, ability in practical politics, personal magnetism the South American zone. and a real mission on which he is very clear.

## NO AMALGAMATION

It seems as if the Bennett railway amalgamation scheme is likely to die aborning. True the Premier has not openly and directly advocated amalgamation but he has been plainly working in that direction and only the strong opposition which is developing will prevent his introducing a measure into Parliament to provide for it.

Throughout the country there is a strong feeling of op- first place. The results were as folposition to such a scheme. In Prince Rupert a vote would lows give two to one against it, at least. The probability is that legislation along the line of the Duff report will be as far as Parliament will go.
