LEARN HOW COOK FISH

Lady Comes All Way Across Continent to Demonstrate to Prince Rupert People

Mrs. G. Spencer, cookery specialist of the Dominion Department of Fisheries, arrived this morning on the Prince Rupert and will give a demonstration here tomorrow afternoon in the I. O. D. E. Hall under the auspices of the Daughters of the Empire.

Mrs. Spencer has travelled through the country giving demonstrations in all the cities at which she has visited. She teaches the people how to prepare and cook fish, whatever fish happens to be the one in which the people are particularly interested.

In Prince Rupert Mrs. Spencer will explain how to get the best results from cooking halibut, salmon, herring, sole and other local products. Many people do not know how to prepare these for the table but they can learn from Mrs. Spencer at her demonstration here.

WILL ROGERS AT CAPITOL

Back from their famous trip when "they had to see Paris," Will Rogers and his family lead you through a breathless and hilarious series of business and social complications in Oklahoma in "Down to Earth," the famous comedian's newest picture at the Capitol Theatre tonight and tomorrow.

A daring innovation in screen entertainment, "Down to Earth" weaves into its fascinating plot some of Rogers' shrewdest comments, and beneath its continuous flood of fun and laughter runs a significant undercurrent of some philosophy. Rogers has a well-earned reputation as one of the keenest and sanest observers in the country today, and in this picture he vividly illustrates his own ideas and common-sense views—for the first time in screen history attaining the timeliness of his newspaper and magazine articles along with an absorbingly realistic story that will keep any audience in gales of merriment.

PORT SIMPSON

On Tuesday evening the young people of Port Simpson staged a surprise party at which Miss Alice Musgrove was the guest of honor on the occasion of her birthday. The event took place in the P.S.A. C. Hall.

The Port Simpson Concert Band returned from Metlakatla, where they gave a concert to the people of that town and were loud in their praises of the very hospitable way in which they were received by all.

Very little herring is showing up at present and the spring salmon is not coming in in any great numbers, only a few trollers being out owing to the bad weather.

Miss May Clark, R.N., is on the staff of the Port Simposn Hospital, relieving Miss Thompson, who was called south owing to illness of her father.

Be Sensible about the FLU

With every epidemic of influenza comes an epidemic of advice. But if you have the flu—or you even suspect its presence—there's just one thing to do. Call a doctor immediately.

There are, however, some simple, sensible precautions that everyone should take at this time. Try to keep in good physical condition. Guard against colds or sore throat by avoiding contact with all coughers and sneezers. The germs of disease will often fasten upon the man or woman whose vitality has been lowered by a severe cold.

If you should catch a cold, Aspirin will help you to fight it. Keep a supply of these tablets in the house and take them according to directions at the first sign of any cold. Crush three Aspirin tablets in about half a glass of water and gargle as directed, if there is any soreness of the throat.

Be sure to use the genuine Aspirin tablets; they are of proven efficacy.

Above all, don't delay calling your doctor if you have reason to suspect that you have caught the flu.
