DAILY EDITION Wednesday, Nov. 29, 1933

THE C. N. R. EXCURSION

In view of the excursion from interior points to Prince Rupert next week local merchants are making special preparations to cater to the visitors at that time. It is hoped that as many as possible of the residents of the various points between Prince Rupert and Prince George will take advantage of the opportunity to come to the coast. We also suggest that local people provide suitable decorations for the occasion for their store windows. It being the first time an excursion of this kind has been run, it is very desirable that a good impression be made and that the railway company be encouraged to repeat the experiment.

IS IT GOOD BUSINESS?

The city of Ketchikan was at one time keen to have a local radio station and, eventually, this was secured. Now the merchants are doubtful as to its benefit to the community. Every evening the radio in that city advertises a big Seattle mail order firm and urges the people there to shop by mail. This is hardly good for the city and is not very encouraging to other cities that would like to secure broadcasting stations.

FORD ECONOMY TEST RUN

A continuous 10,000 mile run of a Ford V8 was completed in Winnipeg on Tuesday, October 17, and a large enthusiastic crowd which had followed the performance of the car assembled to welcome it at the Legislative Building.

When the results of the test were made public the first reaction was one of amazement that an 8-cylinder automobile could operate so economically; the second reaction one of enthusiasm that such a feat was possible.

The test car was on the road continuously from October 4th to October 17th, travelling under all kinds of conditions—both road and weather.

The route travelled was from Winnipeg to Yorkton, via Dauphin, returning to Winnipeg via Brandon, Boissevain, Morden and Carman. The total mileage for the round trip was 774 miles, and route was covered thirteen times.

The object of the test was to prove how economically the high-powered, speedy eight-cylinder standard Ford car could be operated, and the final results shown below are most gratifying and satisfactory, not only to the sponsors of the test, but to all purchasers and prospective purchasers of a truly modern automobile.

The car used was not a new unit, but had already travelled over 11,000 miles before the test was made and was standard in every way, no special equipment of any kind being used.

Twenty-five different drivers, under the jurisdiction of a checker from the Contest Board of the Manitoba Motor League, piloted the car through the most diversified road and weather conditions that could possibly be experienced. A lot of the territory covered was very hilly, practically all of it being over loosely gravelled roads, which are not conducive to the most economical operation.

The drivers experienced rain, fog and snow, and unfortunately, for by far the greater period of the test, strong head winds were encountered. On two particular days these winds could be classed as gales.

Temperatures ranged from 70 degrees above zero to six degrees below freezing, and during the whole test only one day could really be termed a favorable one for an economy test run.

In spite of these factors the figures are amazing, and several complete runs were made where gasoline mileage bettered 25 miles to the gallon.

The following are the final results and details in regard to the run, and speak for themselves:

- Number of days run—13. Total mileage—10,000. Gallons of gasoline used—436 1/2. Miles per gallon gasoline—22.90. Oil used (exclusive of oil changes made every 1,500 miles)—3 qts., 1 pt. Total elapsed time of run—305 hours, 1 minute. Time required for changing drivers, meals, refuelling, etc.—33 hours, 29 minutes. Net running time—271 hours, 32 minutes. Net average speed—36.83 miles per hour. No mechanical repairs were made. One battery was changed. Tires were changed on seven trips due to nail punctures. We do not believe there is a standard size automobile being built today that would give anything like the above results under the same conditions, and we are very proud to be able to pass the facts along to you.

CHRISTMAS PRESENTS

People everywhere are considering the question of Christmas presents. One of the most welcome presents a former Prince Rupert resident could get would be a subscription to the Daily News. In order to co-operate with our readers who wish to keep alive in the minds of their friends the activities of the people of the Prince Rupert district, we are making a special half-rate for people living outside the district, if sent by a person who is already a subscriber to the paper. Send in \$1.50 with the name of the person to whom you wish to donate the paper and we will see that they get it by mail for one year.

British-Israel Society Meeting

P. H. Linzey Explains Some Reasons Why Anglo-Saxon People Are Descendants of Israel. P. H. Linzey was an interesting speaker at a meeting of the local British-Israel Society on Monday night, his subject being "Some Reasons Why the Anglo-Saxon people are the Descendants of Israel." J. D. Allen, president of the Society, was in the chair and there were about thirty-five persons present.

Today's Weather

Prince Rupert—Cloudy, light southeast wind; barometer, 30.02; temperature, 39; sea smooth. Dead Tree Point—Overcast, calm; barometer, 30.02; temperature, 42; sea smooth. Triple Island—Cloudy with showers, strong westerly wind; sea rough. Terrace—Raining, south wind, 38. Alyanah—Cloudy, south wind, 33. Anyox—Raining, calm, 40. Stewart—Raining, south wind, mild.

Sport Letter Box

CANNOT FIGHT NOW Sporting Editor, Daily News:—I am willing to box Frank Gomez but, as I am working every day and will not have any time to train until next spring, I will be glad to meet him in the ring then. DAN PARENT.
