## IT'S QUALITY WE'RE AFTER

When a traveler shows us his samples the thing we most want to know is how good the articles are.

Of course we want our prices to be as low as anyone else's but we want to sell gifts which will never cause our customers or us any trouble in the future.

We would rather lose an odd sale than have people say our goods are not right.

People will always find us glad to do our best to make right any disappointing article as it is well known no store can help making a little mistake once in a while.

People will find our prices on the whole very reasonable this year even if silver has gone up a little for some of our goods were purchased before the raise and many of our gold articles were in before the advance.
