Never Was Outlook Better There-Early Resumption at Alice Arm Predicted

Reporting a solid revival of mining activity and interest particularly in the Portland Canal section. Dr. Joseph T. Mandy, resident mining engineer for the northwestern mineral survey district, returned to the city on the Catala this morning after having spent the past week or so inspecting properties in the Alice Arm and Stewart districts. The foundation is being laid, says Dr. Mandy, for a period of real mining in many sections. During the present year there has been much detailed prospecting and development work by prospectors, mining property owners and leas-

Due to intensive prospecting and detailed development work in the Stewart district by owners and leasers, more ore and better grades have been opened up than at any time previously and the outlook is decidedly healthy with further ex-There are six producing mines operating at the present time—Pre-mier, Dunwell.
