UNITED STATES PANIC

The financial crisis in the United States is attracting general attention to that country. For years gold was accumulated in the country until there was so much they did Johnosn 4; Kelsey 2. not know what to do with it. Only recently a huge gold payment was made to United States by Great Britain. But this gold has been of no avail in preventing the present crisis. True it is the export of gold which is blamed but the export is small compared with the large imports that have been made from time to time.

As a matter of fact gold means little if confidence is Cardinals: Meteors vs. Japanese. lacking. As soon as confidence is restored banking and Tuxis vs. Merchants: Comets vs.

OL DMEN'S PARTY

The meeting at Victoria Thursday to invite W. J. Bowser to lead a non-party group was presided over by George McGregor, an old man, and among the speakers were E. B. Andros of Victoria and Dr. Hall of Nanaimo, both well on in years.

The new group represents the wealth of the province. Their policy seems to be to bring back prosperity by cutting down costs.

SPINNING THEIR YARN

While the Technocrats are telling us fabulous stories about mass production, it is noticed that there is a very Meteors general return to the old-fashioned system which obtained many years ago. People are taking up gardening, handicrafts, knitting, individual work of various kinds.

Saturday we told about the people of Burns Lake spinning their own wool. This is simply an instance of what is going on all over the country to a great extent. With the lack of money comes the impetus to do something worth while.

ITS assurances in force have increased since 1929 by \$465,000,000; assets by \$43,000,000. Its policyholders now number nearly a million.

by the Insurance Act of the Dominion of Canada.

Applications for new assurances were received by the Company during 1932 at an average rate of more than \$1,000,000 for every working day.
