GERMANY VOTED FOR FASCISM AT ELECTIONS YESTERDAY

Policy of Suppressing Communism and Socialism Meets With Approval of People—Trade Unions in Precarious Position in Fatherland

BERLIN, March 6.—That the Reichstag in all likelihood will adjourn after a brief session, is the opinion in government circles after the National Socialist landslide in the Reichstag and Prussian Diet elections held yesterday.

Electoral endorsement of the Hitler government's "Nationalistic Revolution" with its policy of suppressing the Communists and the

socialists, leaves no doubt that the next few months will be devoted to wiping out the last vestiges of both Democracy and Communism in Germany.

Hitler's Nazis will comprise the largest group ever sent to a German Parliament. The final tabulation gave them 288 seats out of a Reichstag of 647 seats. Their Nationalist allies got 52 seats.

If the Communists are ruled out, as is expected, Chancellor Hitler will dominate the situation entirely, the Nazis thus obtaining clear majorities in both the Reichstag and the Prussian Diet. In view of the sweeping Rightist victory, trade unions with a total of seven million workers, and white collared employees under the Socialist and Centrist influence, face annihilation. These have been the backbone of the resistance to Hitler, and it remains to be seen whether Hitler, like Mussolini, will attempt to create a substitute Fascist labor organization.

EXCHANGES WORKING

Canadian Markets Not Much Affected by Condition in the United States Finance

TORONTO, March 6.—Canadian financial exchanges and markets were working as usual today. Directors of Toronto and Montreal exchanges made it clear that if any wave of selling from the United States made its appearance the exchanges would be closed.

With the exception of weakness in gold shares, however, the United States situation seemed to have no effect on the Canadian markets.

Both the principal Canadian express companies today put a prohibition on the sale of money orders payable outside of Canada.

United States tourists in Canada found themselves in a puzzling light as Canadian institutions declined to cash checks or grant any premium on U. S. currency.

Would Stop Going From Bad To Worse By Initiating a More Courageous Policy Giving Work

T. D. Pattullo Tells Legislature He Entirely Disagrees With Policy of Impotent Waiting Yet Government Has Nothing to Offer

VICTORIA, March 6.—Utilization of the national credit to start the wheels of industry moving so that workers in British Columbia can get away from the dole system and be employed at reasonable wages was advocated by T. D. Pattullo, opposition leader, in the Legislature last week. The proposal was embraced in a definite policy outlined by Mr. Pattullo to put unemployed in British Columbia back of payrolls and restore purchasing power to the hands of the people.

Recalling the speech of H. D. Twigg who opened the debate on the Speech from the Throne, Mr. Pattullo remarked: "We are told that with the inherent courage and fortitude of our people and our illimitable resources everything will eventually be all right."

"I entirely disagree with this policy of impotent waiting," he said, with emphasis, and scored the government for its failure to heed early warnings on the unemployment problem it would have to face and its failure to efficiently handle the matter.

"Have we nothing to offer other than to cut down governmental public works, municipal services, express and telegraph services and all other public services?" he asked. "Is this all that is to be offered to the people?"

"What is industry going to do? What is going to happen to all those thrown out of work? Are we to continue to go from bad to worse? "With riots taking place, municipal

ALL EXPORTS OF GOLD AND SILVER COIN OR BULLION ARE EXPRESSLY FORBIDDEN UNDER PROCLAMATION ISSUED AT WASHINGTON LAST NIGHT.

WASHINGTON, March 6.—President Roosevelt took hold of affairs of state without losing any time after his inauguration Saturday. Last night he issued a proclamation taking absolute command by the government of the nation's gold supply, declaring a national holiday on banking until Thursday and calling a meeting of Congress in extraordinary session that day to deal with the financial situation.

The proclamation prohibits the hoarding of coin or currency, places an embargo on gold and silver exports and prohibits the earmarking of American gold by foreign nations.

In order that the business of the country may proceed, the proclamation authorizes the issuance of clearinghouse certificates and provides national regulations for this.

The president blames the present condition on recent foreign inroads on the gold supply and all gold or silver currency or bullion exports are expressly forbidden.

Provision is made for the banks receiving deposits in trust and checks may be drawn against these.

The action of the president is interpreted by some financial authorities as a temporary suspension of the gold standard.

Emergency legislation is being prepared to present to Congress Thursday. Secretary of the Treasury Woodin said today that the payrolls of the United States must be met. If necessary restrictions would be placed upon the banks in issuing cash would be lifted to permit payment of wage accounts.

The Secretary was emphatic in the assertion that the action of the President did not take the United States off the gold standard and most financial authorities here agree with him.

The action of the President is looked upon here as a shattering offensive which is bound to bring back normal conditions very rapidly.
