NOBODY KNOWS

Nobody seems to know exactly what is about to happen in Victoria. Premier Tolmie and his group are making strenuous efforts to save themselves. If they could ally themselves with the Liberals they feel they might win out against W. J. Bowser's group. But that has failed. There is no hope of union with T. D. Pattullo and, in the meantime, Mr. Bowser is on the war path and has hopelessly split the Conservatives.

Prince Rupert's member is sitting pretty, confident of courses in the United States. Now games will be played here. his position and refusing to be stampeded into any course there are in excess of 500, mainof action that might ruin his chances at the polls. Once the tained by municipalities in 46 states. Legislature is either prorogued or dissolved he will be out to meet the electors and there will be some wonderful meetings. The people are becoming aroused at the inde- he has been the target for more cision and incompetency of those in office. About that there is no doubt and also there is no doubt as to where the Juniors in 1912. Liberal leader will be. If there is coalition, as there yet may be, he will be found sticking to his Liberal principles and program.

FLOWER CONSCIOUS

According to authorities the world is becoming flower conscious. Along with all the political and social changes! that are going on there is a revolution against ugliness the world's championship when he but Japanese fishermen were in for operations being directed by Capt. and a general movement toward the cultivation of the defeated G. F. Covey, professional, their licenses and everybody secmed beautiful. Flowers are the most beautiful things the earth in 1914. possesses and everywhere flowers are being cultivated indoors and out as never before.

Even in this part of the country people are developing a taste for the beautiful and the beautifying of the city is proceeding in spite of the difficult times through which we have been passing. Officially nothing is being done but unofficially by individual citizens the movement is being fostered and the whole city will benefit.

We need color in Prince Rupert-color in our gardens and color in our homes. Color in our decorations is valuable and also in our apparel. Flowers bring color better than anything else and they show off well against the dull green of the shrubbery and the forest and brighten the homes during dull weather.

Little Ken Doraty Was Hero of Home Team When He Belted a Shot Into Opponent's Cage During Sixth Overtime Period

TORONTO, April 4: (CP)-Victors in an epic marathon of the ice that stretched over more than five hours, the Toronto Maple Leafs last night defeated Boston one goal to nothing to win the National Hockey League championship.

The game broke all records for endurance, actual play lasting 164 minutes, 46 seconds. Four minutes and 46 seconds after the sixth overtime period started little Ken Doraty, the third string right winger, belted an ankle high shot into the Boston cage after picking a fast pass from Andy Blair to break up the battle.

A few minutes before 2 a.m., two hours after the finish, Toronto took a special train for New York where they are signed Basso-Bert, who I suppose cles. In one instance the police to meet the Rangers tonight in the first game of the best as one of the group of aldermen who say they were fired on from a In 1910 there were only 24 golf three out of five series for the Stanley Cup. The rest of the have been carrying out some of the window which gave them the ex.

marks re your editorials on Union Government:

The inept and helpless Tolmie The reborn Cincinnatus, display-

ing the banners of unionism with onomist fortunes of British Columbia, is nothing but a masqueraded confronting the people of this province at the forhcoming election and an attempt to perpetuate the old regime from coast to coast.

What is the issue? Very plain, It stands between the preservation of the privileges of the few who have a financial monopoly and a strangle-hold on the economy of the nation, who keep on adding taxation upon taxation on the the necessities of life on the one hand and on the other the supreme necessity of grappling with the grim realities of the present hour which are anguishing practically every citizen of this province and a confprehensive attempt to break the viscious circle of unemployment by providing work.

It is humiliating for any man to be compelled to beg for the wherewithal of life. It is pitiful to see so many able and willing people forced to be idle year after year in a country where there is so much to do. It is almost inconceivable that such a condition would exist.

Let every true citizen wake up and take a stand against the perpetutation of such a state of af-
