HAWAII TO FAR NORTH

Interesting Party of Thirteen Boys Here Yesterday Aboard SS. Prince George

An Hawaiian-Alaskan Expedition party of boys, the most of whom are from Honolulu, passed through the city aboard the steamer Prince George yesterday enroute north on a two months' trip to Alaska and the Yukon. The party was under the leadership of two young men, Bayne Beauchamp of Honolulu and J. B Sturgess of Los Angeles, and consisted, besides these two, of eleven lads between the ages of fourteen and nineteen yars. They expect the entire trip will take about two months' time.

Crossing from Honolulu in the liner Monowai, the party of boys from Hawaii landed at Vancouver on June 16. From Skagway they proceed to Whitehorse by rail and from there will travel 1600 miles down the Yukon River and up to the Nenana River to Tanana in four rowboats one of which will be equipped with an outboard motor, the other three being oar-propelled. Two of the river boats are already at Whitehorse, having been used by a similar party last year, and the other two will be built before the party starts off down the Yukon.

From Tanana, the boys will travel by motor stage to Valdez where they will embark by an American steamer for Seattle whence they will proceed in cars to San Francisco where they will embark for home after their memorable trip on the liner Malolo.

In addition to Messrs. Beauchamp and Sturgess, the party consists of Bill Dunbar, Gilmer Shingle, Benny Kneubuhl, George Schnack, Harold Schnack, Arthur Waal, Gerald Greenwell, Ted Grounds, Jack Dyer and Gartley Wilson of Honolulu and Dallas Beachamp of Glendale, Cal.

UNEMPLOYED IN SESSION

Weekly Meeting of Unemployed Councils Held Last Night

The Unemployed Councils held their weekly meeting in the Canadian Labor Defence League Hall last night.

A committee was detailed to interview City Commissioner Alder as to his decision regarding return of the scrip system of relief.

A letter of the secretary to the local chamber of commerce protesting against the resolution regarding abolition of jury system in trial of criminal cases was approved.

It was reported that certain individuals were working for 50c per eight-hour day. Investigation will be made of such cases.

Several householders in the city having received notice from the City Hall that arrears must be paid on the due date, otherwise the city will have no choice but to throw their property on the market by forced sale, it was decided that the matter will receive special attention at the next meeting when those interested will be specially invited to discuss ways and means of saving their homes from this threatened action.

Oscar Larson acted as chairman.

Violent Language In British Films is Now Being Banned

LONDON, June 22: (CP)—Violent language, with the use of such words as "damn" and "blast," is to be banned in future from the films made by the British and Dominion Company. The "provinces" are responsible for this decision.

"When my film, 'The Little Damozel,' was shown in Leeds," Herbert Wilcox told a reporter, "the manager of the cinema informed me many of his patrons wanted to know why it was necessary to use such words as 'blast' and 'damn,' and that it was regarded as a reflection upon our ability if we were not able to express ourselves sufficiently well without resorting to such words. Since then I have discovered this view is general in the provinces. Many people attending a cinema idolize the stars and are badly disillusioned when they hear them use strong words."

Converting Left-Handed Pupils Is Prohibited

LONDON, June 22: (CP)—Kettering Education Committee has forbidden its teachers to stop left-handed children from using the left hand for writing and other manual work. This has been done in consequence of a report by Dr. C. B. Hogg, the medical officer, whose attention has been directed to certain cases of stammering. The inquiries revealed that a number of these cases were left-handed children who had been converted to writing with their right hands.

Dr. Hogg cited facts showing that of 41 left-handed children who were compelled to use the right hand 24 became stammerers. In a further case 12 right-handed children were trained to use the left hand, and within five months all developed a stammer.
