THE THREE GROUPS

In his address to the Rotary Club yesterday Weldon to first principles." McAfee spoke of the three main groups into which people are divided today. There are the people who wish to go on as we have been going. Then there are the communists on any previous occasion. There and socialists usually known as "reds" who want a com- 1864, 1873, 1893, 1897, 1903, 1907, plete overthrow of the present system. The third, which 1913, 1921 and 1929. Capitalism he intimated was by far the largest, was the large body of seemed to consist of prosperity, people who would preserve the present institutions and panic and liquidation. The present system but would so modify them as to make them suit present needs. These he thought would carry the day. They mere panaceas and palliatives. are the people who believe in gradual changes, taking a step at a time in the matter of reform. They realize the dous interest taken today in econofailure of the present system as at present constituted but mic problems. The present situation would have such changes made as will bring it up to date would be ludicrous were it not so and enable it to deal with present day conditions. The constitution of every British country is an elastic organization capable of growth. It can be made to fit every possible condition. The work of such reorganization must be the capable of indefinite expansion, the work of great statesmen backed by a strong body of pub- result of the industrial revolution lic opinion.

PREMONITIONS

One of the things most of us are unable to understand mand for consumers goods-how to is the premonition. It is said that one of the members of the get the outchasing power back into Winnipeg Toilers basketball team had a premonition that they would be injured in an airplane accident. He even went so far as to write newspaper headlines of the event faith in the present system but, to such as "Toilers' Plane Crashes; Players Killed." He also disposed of some of his goods that he expected he would not need. He was later one of those severely injured.

It is possible to explain thought transmission or mental impressions which might even picture things happening at as such must be discussed and seta distance, but to explain mental impressions of events tled internationally. It would inabout to happen is more difficult. Practical westerners are volve a reduction in the hours of not used to dabbling much with the occult but people of labor with present wage scales the east with their dark, dreamy eves seem better adapted to studies of the psychic world of which we know little. They have been studying these powers for many centuries while recognizing the need of adand many seem to have achieved great success in that vancing and not retrogressing and realm.

THE CANADA STARCH CO. LIMITED. MONTREAL

Need of Putting Purchasing Power Back Into Hands of Consumers is Emphasized by Rotary Club Speaker

"The ultimate aim of all economic endeavor is to fill human needs and to promote happiness," according to Weldon McAfee, manager of the Big Bay Lumber Company, who gave an unusually interesting address to the Rotary many is answering no purpose. For Club yesterday on economic questions. He stated that the student of historical events people were divided into three main groups-those who facts only count.

consoled themselves with the thought that the present slump was simply one of recurring crises and would pass away; those who were BIG QUAKE avowedly and honestly out to upset the present social system and replace it with a new one based on socialistic or communistic principles, and the third, the great body of people who are essentially conservative and attached to national institutions and who would ultimately decide what the future social structure of the world would be. Took Refuge From Falling Buildsomething was wrong and needed leadership to show them the way

In opening his address Mr. Mc-Afee said he did not think real understanding had made much progress in the last two thousand years. Tremendous advances had been made in technology but, so far as real wisdom was concerned, if people went back to Plato, Aristotle or Jesus, they would find most of the ideas which were floating around Had the disturbance occurred ear today. He quoted: "They rise again lier in the afternoon while th from their depression by recurring

The world had got itself into a bad mess, a little more difficult than concern should be as to whether ings. "The buildings began to remedies should continue to be creak," writes Mr. White, "and

The speaker told of the trementragic. On the one hand were found unemployment, distress, want, men unable to find jobs; on the other unparalleled powers of production which commenced in the middle of the nineteenth century. Even during the boom times of 1929 there were said to be two million men idle in the United States. Today the great problem was how to restore the dethe hands of the people.

Faith in System

Mr. McAfee said he had every maintain the right division of wages, interest rent and profith industry must be on a different basis. The solution might prove difficult. It was an international question and maintained or increased. It would also involve heavy taxation on unearned increment including profits. the necessity of maintaining a surplus and the supply of capital goods, yet "I do say that there should be a better balance between the function of production and consumption, that the slack should be taken up, something that can be achieved by having purchasing power where it is needed."

Concluding, Mr. McAfee said: "In the present stage of world development no nation can live unto itself. Measures which are taken to relieve present distress should be international in scope. Rotary, as an international institution, should find it possible to assist in placing the world back on its feet."

All nations now have come to a realization of the futility of war as an instrument of settlement.-Sir

George Maskulak, Timothy O'-Rourke, James Walker and Richard Downie, all of Prince Rupert, who ! were recently sentenced to two months' imprisonment each at Prince George on charges of "riding | the rods" have appealed the convictions to County Court and have been released on bail pending hearing of the appeals on May 2 by Judge H. A. Robertson at Prince George, according to advice received at divisional headquarters of the provincial police here.

Pete Cravetto, well known local tailor, sailed last night on the Prince Rupert for a business trip to Vancouver

The Letter Box

ANSWER TO W. GOLDBLOOM AND FRED GURNER

Editor, Daily News:--

My brief comment on the German election was purely historical-to pick up details of a revolution such

Fascism and Communism is over. Fascism rules supreme in Germany as Communism rules in Russia. The DESCRIBED distinguished scholar and philosopher Lincoln Steffens in his sopher Lincoln Steffens in his epoch-making speech in Hotel Vancouver last Friday said: "Euro-Former Local Man Writes Interestpean Fascism is our last hope. Fasism will sweep the world. France and Britain will follow next." Of course he stated further, "There is a choice, one can go the Communistic way, we Americans will go the Fascistic way." Questioned again he reiterated, "What occurred in Gernany and Italy are mere chapters of our future history."

These statements from such a distinguished and true American as Lincoln Steffens are of great importance and deserve our thought-

ingly to his parents of his personal ful consideration. A revolution of our social system experience of the recent severe is in action, a thing that no people; earthquake in the Los Angeles dis can avoid. The old social system trict where he has lived for years. that was born of the French Revolution of 1789 and has dominated would undoubtedly have been many Mr. White was standing at the corner of Sixth Street and Grand Street in downtown Los Angeles on the other.

when the first and most severe! not want to hear anything about squabbles. them. A people like the Canadians should not be afraid of mere ideas.

We must realize that thought precedes all human actions. In my judgment these new ideas must be studied and discussed. I consider it an elementary duty for all good citions to study them, particularly the space in your valued paper to say lize today what a mistake they thinking people, so as to face the a few words about the present con- made.
