### GAMBLERS IN DRAMA

Clark Gable, Carole Lombard and Dorothy Mackall in "No Man of Her Own"

Clark Gable, Carole Lombard and Dorothy Mackall are featured in "No Man of Her Own," which will be the attraction at the Capitol Theatre this mid-week.

Trouble enters a big time trans-Atlantic gambling partnership because Dorothy is madly in love with Gable and the gambler is fed up with her. When he walks out on her, she threatens to go to the District Attorney and Gable, with Detective J. Farrell MacDonald too hot on his trail, decides to leave New York until Dorothy has cooled off.

In Glendale, he meets Carole Lombard, a bored small-town beauty and, because he loses the toss of a coin, marries her. He takes her back to New York, intending to use her in much the same way he had used Dorothy. But two things happen: This hard-boiled, fast and loose gambler falls in love with his wife and Dorothy, back from a Mediterranean cruise, violently resents the marriage of her ex-boy friend. The result is exciting drama.

### DOMINION RELIEF TO END IN JULY

(Continued from Page 1)

ceeding 20c per diem for each day worked. Men will work eight hours a day except Saturday, the afternoon of which will be used for recreation. Sundays and statutory holidays will be observed.

If men other than homeless men are admitted to the camps the province will have to pay to the Dominion for each the sum of 25c a day.

Evidently from the wording of the agreement it is the intention that direct relief shall cease at the end of July, as no provision is made for Dominion contributions after that date. During the month of May the Dominion pays one-third of the cost of all relief; during June, 30% only, and, during July, 10% after which no provision is made. There is, however, a provision that in cases where a municipality is financially unable to assume a greater percentage of direct relief the Dominion may, on recommendation of the province, contribute an amount in excess of that contributed by the province.

In unorganized districts the Dominion will, until the end of July, pay to the province one-half of the amount expended in direct relief. It is evident from the document that it is the intention that all Dominion contributions to relief shall cease after the end of July and that the road camps shall take the place of the relief payments.

#### SERVICE OF MAIL

(Continued from Page 1)

people of that convenience for the few dollars that may be saved; for I presume the mail has to go there anyway, whether there are few parcels or many, and I cannot see what saving can be accomplished.

Mr. Sauve: We tried to do our best; if we have not satisfied the people there we will seek to do so. But my hon. friend will understand the situation that faces us on account of the depression of business. We are trying to do our best to serve the public and at the same time to serve the interests of the

### country. If your people are not satisfied we will seek to satisfy them.

**Anox and Alice Arm**  
Mr. Hanson (Skeena): May I also ask the Postmaster General this: In the same district the towns of Anox and Alice Arm up to last spring had three mail services a week. Last spring they were cut to two, which was naturally a hardship on those communities. The latest report that I have received informs me that it is anticipated that the service will be put to once a week. I have several letters containing these complaints but I do not think it is necessary to put them on record. I just want to register these complaints and I should like the minister to look into the matter very carefully before reducing the services from three to one a week. The population is the same as it was before, so I do not see why they should be deprived of that service.

Mr. Sauve: We have asked for a better price for a weekly service. I suppose we will receive tenders, and we shall do our best.

ish Empire, Past, Present and Future," in which he told the students how much they had to be proud of in belonging to the British Empire even in these troublesome times and how great a part they must play in the future to keep her respected as she is today.

#### URGES SKEENA HIGHWAY WORK

Editor, Daily News:

Now that the government has announced plans for extensive road work throughout the province for the summer months it appears strange that the Skeena highway from Prince Rupert has received no mention. Considering the large number of unemployed in the city that have not been required to work for their relief up to the present and the fact that all could be utilized on the local highway there can be no justification for the neglect on the part of the provincial government, which, no doubt, is responsible. It is true that twenty cents a day is very low wages, but the men would not be required to strain themselves, and considering the long spell of idleness they have enjoyed at the taxpayer's expense I am sure that they would be eager to become self-supporting once more. If the highway could be extended to Prudhomme Lake this season it would add much to the value of the existing road and would be an added asset to the community.
