Many people are wondering what is to be the outcome of the new deal movement in the United States for insti- selves and for the Reich. tuting the shorter hour week with good wages and everybody employed. It is a huge undertaking and doubtless ing the period of revolution in Gerthere will be difficulties having it generally adopted.

A representative of New Zealand on his way to the Banff conference expressed doubt as to the applicability to the state. He should, therefore, of the scheme to other countries than the United States. be divested of his liberty until the He expressed the view that it was only in a self-contained state is thoroughly consolidated country such as the United States where only ten percent and those whom he used to lead of her goods were imported and where the producers were protected by a high tariff could the scheme hope to work.

Undoubtedly shorter working hours have to come in order to keep down production but the danger is in the na- charge preferred against them, the tions that compete with longer hours and lower wages.

Canadians will genuinely hope that the plan works and many expect that Canada will be the first country to follow the example if it is successful.

CONFERENCE AT BANFF

The Pacific Relations Conference at Banff is a very important one. It discusses many of the problems which confront the nations on the Pacific Ocean with the view that the ocean connects the nations rather than separates them. In Canada, for instance, we have the racial prob-special liberties. lem. Japan and China are over-populated and other countries, including Canada, are under-populated. Yet nothing, ted Nazi keeper, a blue-uniformed it seems, can be done about it. THE OLD COMPLAINT

Complaint is made at the session of the banking commission that western money is being sent east to develop the east when it should be used in the west to develop the west. This is a problem that has been discussed by Chambers of Commerce and other bodies for many years. It is usually denied by the bankers. Western banks are usually referred to as collecting banks where deposits are received the part of Austrian Nazis. and the money sent to the loaning banks in the east where people find it easier to get credit.

Military Discipline

Communists, Pacifists and Others Have Military Discipline and Must Sing Nazi Songs

SONNENBURG, Germany, Aug. 15: (CP)-The former Sonneburg penitentiary has been converted into a concentration camp where 400 Communists, Socialists and Pacifists are interned under the "Protective arrest" provisions of a government emergency decree.

No one can tell the inmates how long they will be held. No one can enlighten them as to why they are detained, except that it is a "protective" measure both for them-

The Nazi regime feels that durmany anyone who has been in a position of leadership among the oppositionists constitutes a danger have become imbued with the credo of the new Reich.

As the arrested men are not serving any sentence and have had no warden has been instructed to give them as much liberty as is consistent with prison life. Thus, the men for the most part sleep three in a room. During the day they are permitted to sit together in an adjoining cell to play cards, read books or talk.

Those who .have learned trade such as baker, cobbler, cook, tailor. barber or carpenter, are set to work and in return are given certain

The discipline is that of a military barracks. When a brown-shirpoliceman or a state's attorney enheels, stand at attention and reply to questions in a military way.

When they gather in the prison drill sergeant of the Imperial Army part of the daily exercise there is PREPARING during which the men are required to sing Nazi songs.

CANDIDATES

Various Parties Active in Different Parts of the Province Getting Ready For Election

VICTORIA, Aug. 15:-The number of candidates in the forthcoming political contest is rapidly approaching the one hundred mark. Ninety-six have made formal announcements or been chosen by arty conventions. In the Islands, where an effort was made to pull some of the candidates back to allow free running for Colonel W. W. Foster, another candidate has come forward in the person of Russ Humber, a native son of Victoria and a former alderman of that city.

Capt. J. R. Bates of Comox is out independent of any organization or group and will accept no campaign funds. He will, however, allow any person or group of electors to hire a hall for him and attend to other necessary expenditures.

In Vancouver there is great activity among Liberals in view of the nominations of party standard bearers in that city next week.

Mayor Johnstone of Kamloops recently sought the Liberal nomination. He was defeated in the convention so now he is out strongly against party government.

It looks as if there might be a fight over the university ruling in Vancouver. Several professors at that institution are talked of as possible candidates in the Liberal interests. Dr. Weir and Dr. W. A. Corruthers may be in the field.

Mrs. Paul Smith is spoken of as likely to be a Liberal candidate in Vancouver. Others mentioned are G. G. McGeer, J. W. deB. Farris, Gordon Mismer, Stanley S. McKeen and J. W. Thompson.

The United Front may have only one candidate in Vancouver and focus their voting strength on him.

The Islands Central Conservative Association has announced a convention at Ganges August 28. The C. C. F. have just organized in the same district.

Man in the Moon

Good afternoon. How do you like the summer now?

The visitors yesterday surely liked the sunshine after experiencing rain and fog all the way north.

How about a few more political platforms? These independents have all sorts of freak ideas.

Jake says when he announces his platform it will contain provision from the rest of the Dominion, with to shame every other part of the continent.

The Mayor of Hazelton declares the capital should be there because they already have the political organ and all the people need is a little more capital.

Someone dares me to write a verse about the weather today.
