A UNITED FRONT

The people of Western Canada owe a debt of gratitude to Premier Pattullo of British Columbia for calling the western premiers promptly into conference and putting before them a program for dealing aggressively with the unemployment situation and the related evils which have brought about that situation or resulted therefrom, says the Edmonton Bulletin.

The fact that the four premiers were able to conclude their conference in a single day, and conclude it with unanimous approval of the program, is proof that Mr. Pattullo knows very definitely what he wants to do, and that his method of attacking the problem recommends itself readily to those who have been at close grips with it. That the Liberal premier of British Columbia, the U. F. A. premier of Alberta, the Conservative premier of Saskatchewan and the Coalition premier of Manitoba found themselves in agreement as to the proper line of action vetoes any suggestion of partisan or political trend in the proposals.

As a result these four provinces will speak as one to the other provinces and to the Dominion government on the subject that has puzzled and paralyzed every government in Canada for the last three years. Whether they will be able to enlist the support of the eastern provinces and gain the assent of the Dominion government remains to be seen. If not, the fault will not be a lack of known and positive agreement among the western provinces. These will now present a united front, and a common demand for action.

The program they have adopted will be widely discussed in detail. For the moment the important thing is that they have agreed to make common cause and have charted the course. It is due to Premier Pattullo to say that in the few days he has been in office he has done more to inspire and organize a drive for recovery than all the governments in Canada together have done in three years.

IT'S QUALITY WE'RE AFTER

When a traveler shows us his samples the thing we most want to know is how good the articles are.

Of course we want our prices to be as low as anyone else's but we want to sell gifts which will never cause our customers or us any trouble in the future.

We would rather lose an odd sale than have people say our goods are not right.

People will always find us glad to do our best to make right any disappointing article as it is well known no store can help making a little mistake once in a while.

People will find our prices on the whole very reasonable this year even if silver has gone up a little for some of our goods were purchased before the raise and many of our gold articles were in before the advance.

Advantages of Buying In Prince Rupert

Annunciation First Prize

(By Terry Fortune)

It was the spirit of loyalty in the hearts of the pioneers of Prince Rupert that made the little city started in the wilderness of the north grow into the size of the Prince Rupert we know of today.

The fact that our city is passing through times of depression should awaken that loyalty anew and there is no better way of showing this than by patronizing our local stores and spending our money in our own town.

Money spent thus is circulating amongst us, giving a new start in business circles, and putting into our public funds sufficient means to carry on and to improve the good work started many years ago. Our excellent fire department, police protection, pure water supply, sanitary regulations, good roads and many other privileges we enjoy, must be kept up by us. Our local schools, which are equal to any in the province, must keep the standard they have obtained. The wonderful opportunity of education has been given us and if we want to carry on we must do our best to help the city which pays the teachers' salaries. Our library is another great boon we enjoy and it demands the support of the people.

The practice of buying in our local stores benefits not only the city, but the individual, because it is possible to examine what is being bought and to obtain whatever we want. To the storekeeper this advantage is also great, according to the amount of money taken in. They are able to offer goods at a lower price, to buy stock in greater quantities, and to have a better assortment of merchandise. They are able to employ men and women of the town to work in these stores, thus overcoming the problem of unemployment, and at the same time putting more money into circulation.

After a few years of this co-op-

eration between local merchants and consumers, Rupert would become the great metropolis of the north as had been planned by those dauntless men and women, who twenty-five years ago laid the first foundations of the city of Prince Rupert. So let us all both young and old do all we can to build Home Industry and the best and only way to begin is to "Buy at Home."

DEFAULTED ON DEBTS

Estonia Only European Nation to Pay Full Instalment to U.S. Yesterday

Token Payments

Made By Britain and Italy, France And Other Nations Fail To Pay

WASHINGTON, D.C., Dec. 16:—Of \$153,000,000 due in war debt payments to United States yesterday, only \$9,000,000 was actually received. The Department of State announced last night.

Great Britain, Italy and some of the smaller nations made partial "token" payments, Britain remitting

by check \$7,500,000, 6.4% of the \$117,500,000 due.

France, Belgium and Poland, as they have done since last year, again defaulted outright as did Estonia. A note from Belgium stated that no further war debts could be expected from that country until Germany resumed reparation payments.

Finland was the only nation to meet its instalment in full yesterday, paying over \$239,000.

Almost Dead Issue

LONDON, Dec. 16:—That United States had no hope of collecting from now on any more than a small percentage of "token payments" on war debts from any of the European nations and that even these would probably be soon discontinued was the view expressed in official quarters here yesterday as obligations of fifteen nations became due, all but Finland defaulting either partially or entirely.

Patrick O'Farrell Publicist, Is Dead

VANCOUVER, Dec. 16: (CP)—Patrick A. O'Farrell, aged 77, well known Irish-Canadian-American publicist and world traveller, is dead in Dublin, according to advices received here.

Tonight's train, due from the east at 10 o'clock, was reported this morning to be on time.

J. W. McAuley, locomotive foreman here for the Canadian National Railways, left on last evening's train for Prince George where he will spend the next month on relief duty.
