### MAKE COIN OF SILVER

Stewart Board of Trade Urges Metal Instead of Paper Money

STEWART, Aug. 21:—The regular meeting of the Stewart Board of Trade was held on Tuesday evening. P. S. Jack was unanimously re-elected secretary, Mr. Jack's acceptance being greeted with applause. The meeting resolved itself into a meeting of the whole to go into the matter of the organization's finances and produced a budget whereby the expenses for the coming year will be kept well within the known revenue.

A resolution urging the coining of Canadian silver dollars in replacement of a part, at least, of the paper dollars now in circulation was forwarded to the Commission on Banking and Currency. According to the remarks of several of the speakers to this motion, the cost to the country of silver money, as compared with paper money, is very much smaller, and the movement should result in two-fold good, reduction of overhead expense and benefit to the market price of silver with all its attendant advantages.

The board will undertake to collect and forward mineral samples from properties now in operation or development to be added to the Portland Canal ore exhibit now in Vancouver so that this exhibit may be brought up to date for the Vancouver Exhibition.

A favorable reply was received from the provincial government to the board's request that the centre line of the Stewart-Hyder road be painted around all the bad curves. Dr. O. E. Kvale of Prince Rupert was a visitor to the board's meeting and spoke briefly.
