

**Headaches and Dizzy Spells
Nerves In Bad Condition**

Mr. Neil Crawford, Hamilton, Ont., writes:—"My nerves were in such bad condition I found it almost impossible to get a good night's sleep. I was also bothered with headaches and dizzy spells. I tried many different remedies, but they did not seem to give me much relief, but after I had taken Milburn's Heart and Nerve Pills I could hardly believe the change they had made in my condition."

Activities in Connection With Salmon Trolling—
New Engine Installations—Halibut Landings

Spring salmon trolling activities are now beginning to get more fully under way in Prince Rupert district although it is expected that it will be the middle of May before the bulk of the fleet gets out on the various grounds for the season's operations. The run has so far not been of such proportions as to encourage an earlier start than usual and, also, there has been a rather disappointing falling off in prices recently.

Some fifty boats are now understood to be operating on the North Island grounds, this number being about evenly divided between white and native fishermen and practically all being gasboats. The run there so far has been very light.

Fishing activities have not started as yet at Hippo Island on the Queen Charlottes, the native boats of Skidegate waiting for the packers to start service before commencing fishing there.

There is more or less desultory fishing going on at Dundas and Stephens Islands and the grounds closer in to Prince Rupert.

The first fish packer to arrive on the scene at North Island this season under company auspices was the Takla, Capt. Chris Parkvold, regularly a halibutter, which has been chartered for the season by Edmunds & Walker to pack fish from there to New Westminster. Fully outfitted for her first trip, the Takla left Prince Rupert on Tuesday of this week for North Island to pick up her first load for New Westminster. Later on in the season it is expected Edmunds & Walker will have some four or five packers in all making the long run from North Island to New Westminster.

Packing springs from North Island to Butedale for the Canadian Fishing Co. will start next week with the Massett seineboat-packer Edenshaw, Capt. Harry Edenshaw.

The Union Oil Co. has had its tank scow and commissary, with George Smith in charge, on the ground at North Island ready for business since mid-April. Sam L. Simpson of Massett will operate a similar establishment at North Island, handling Home Oil Distributors Ltd. products and is now engaged at Massett in getting the scow and outfit in readiness for business.

Trollers at Dundas Island will be served by a commissary to be operated by the Northern British Columbia Salmon Fishermen's Co-operative Association.

The opening price being offered by the company packers at North Island is 5 1/2c per pound for red springs.

New Engine Installations

The Pacific Machine Works at Prince Rupert is engaged in the installation of Finnoy semi-diesel engines of Norwegian manufacture in a number of local fishing vessels.

The most important of these installations is a 60 h.p. machine which is being placed in Capt. Ole Skog's big seineboat Fredelia, replacing a 40 h.p. Frisco-Standard gasoline engine. Prior to installation of the engine, the Fredelia was at the McLean Ways to receive a new sternpost and engine bed. The engine, which arrived this week, was lifted into the Fredelia by use of the Albert & McCaffery crane.

Finnoy engines of 15 h.p. in each case are to be installed in new 33-foot trolling boats which have been built for Harold Holkestad, who was owner of the halibut boat Helge H., which was lost at the opening of the fishing season, and who has now turned to trolling, and for J. Haggen, who formerly had the troller Whitewater. Holkestad's new boat has been built at Digby Island by Ed. Wahl and is due here any day and Haggen's at Oona River, Por-

cher Island, by John Groop, having arrived from there this week. Recently a 40 h.p. Finnoy engine was installed for Capt. William Leask of Metlakatla in his well known seineboat and packer Hazel L.

Orville F. Denstedt is due to return to Prince Rupert at the middle of May to rejoin the scientific staff of the Prince Rupert Fisheries Experimental Station after having spent the past six months engaged in continuation of studies at McGill University in Montreal.

Cannery Crews Arrive

Delayed by having heavy freights for cannery points along her route, Union steamer Cardena, Capt. Ernest Georgeson, running almost 12 hours late, arrived in port at 9 o'clock this morning from the south and sailed an hour or so later on her return to Vancouver and waypoints. The Cardena brought north the crews for the Canadian Fishing Co.'s canneries at Carlisle and Haysport on the Skeena River including A. D. Matheson and Clarence E. Salter, the respective managers. Mr. Matheson was accompanied by his wife.

Halibut landings at the port of Prince Rupert for the 1933 season continue to maintain their increase in volume over last year. For the present season up to and including yesterday landings at the port had totalled 3,613,500 pounds as compared with 2,972,950 pounds at the corresponding date last year. Canadian landings for this season had reached a total of 1,460,700 pounds as against last year's 1,369,050 pounds at a similar date while the American total for 1933 to date was 2,152,800 pounds as compared with 1,603,900 pounds last year. For the week of April 22-28 this year landings totalled 515,500 pounds comprising 238,000 Canadian and 277,500 pounds American fish. Top price of the week for Canadian fish was 5.3c and 2c which the Prosperity A. received for 22,000 pounds while the low price of the week for Canadian fish was 4c and 2c which the Covenant and Rose Spit received for catches of 25,000 and 23,000 pounds respectively. For American fish the high bid of the week was 6.5c and 3c which the Majestic received for 32,000 pounds and the low 4.1c and 2c which the Tahoma accepted for 7,000 pounds.

A settlement has been arrived at between the Armour Salvage Company and Captain Tony Martinussen under which the former purchases the halibut boat Livingstone II. The boat had been salvaged after striking a rock and sinking on the west coast of Dundas Island.

"TILLIE THE TOILER"

Maddening Silence

—By Westover.

MAC'S PROBABLY BORE BECAUSE YOU WASHED HIS CAR 'S BETTER GO IN WITH YOU!

YOU STAY OUT OF THIS, EDDIE. I CAN HANDLE THIS SITUATION MYSELF.

SAY— LISTEN MAC—I KNOW JUST WHAT YOU'RE GONNA SAY, SO KEEP QUIET! I DON'T WANT TO HEAR ANOTHER WORD OUT OF YOU ALL DAY!

AFTER ONE HOUR OF SILENCE

GOOD GRIEF! SAY SOMETHING OR I'LL GO MAD!
