CANADIAN PARLIAMENT ENDS WORK; WHIRLWIND FINISH

Ottawa House Closes Lengthy Session By Adopting Seat Bill

Liberals Oppose Redistribution to End But Are Outvoted
45 to 15—Another Sitting in Fall is in Prospect
As Members Leave For Homes

OTTAWA, May 29: (Canadian Press)—With prospects of another session in the fall, members of Parliament are now homeward bound after a session lasting nearly seven and a half months. With a whirlwind finish, Parliament passed the contentious Redistribution Bill late Saturday afternoon and was prorogued in the evening by the Governor General. Liberals maintained to the end their opposition to the bill which remaps 245 constituencies but were outvoted by the government 45 to 15. The Liberals based their opposition to the bill chiefly on the grounds that many seats, particularly on the prairies, had had their boundaries changed in a manner prejudicial to the interests of their party on the basis of returns of the last general election.

MAHATMA GANDHI FINISHES FAST
POONA, India, May 29: Surprising his physicians at his survival in spite of emaciation and even further convincing his millions of native followers that none but a "holy man" could come through such an ordeal, Mahatma Gandhi, Hindu nationalist leader, this morning completed his latest three weeks' fast. The Mahatma was in excellent spirits and his physical condition seemed to be little more impaired, physicans being confident that he would recover strength when he resumes eating. The fast was as a protest against "un-touchability."

Farmers Evolve
"Barbed Wire"
Phone Service

CONSUL, Sask., May 29: (CP)—A "barbed-wire" telephone service which functions without power or other overhead expenses has served people of this district in a fairly satisfactory manner for some time.

The plentiful barbed-wire fences which stretch across the countryside are used for trunk lines. A lead wire to which earphones are attached runs from the house to the fence. Wherever there are gates long poles over the gates carry the wires so there is no cut off.

The only disadvantage is that one must be expecting or listening for a call. It is customary to make appointments during conversations as to what time people will be "on the fence again."

Toc H Members Assist Salvation Army Relief

An old Salvation Army building which has lately been used as a store room for second-hand goods but which was too small and in very bad shape, has been pulled down by members of the Toc H and rebuilt with a donation of lumber from the Big Bay Lumber Company.

The building is much larger now and in first class condition but the supply of clothes on hand is low and the Salvation Army would appreciate it very much if this supply could be replenished.

On Thursday, June 1, the Army will hold a "Clothes Day" and any one having old clothes they wish to give away could phone Black 269 or write Box 237 and the articles will be called for.

SIMON IS SKEPTICAL

Disarmament Agreement Has Not Been Reached by Any Means Yet, Says Foreign Secretary

LONDON, May 29:—While not denying that the disarmament conference at Geneva was making much real progress, Sir John Simon, British foreign secretary, declared before the House of Commons at the end of the week that it was folly for the world to believe that the great nations were actually on the eve of a permanent disarmament agreement. There would be no such agreement until all the major nations were prepared to accept such a plan for disarmament as that proposed by President Franklin D. Roosevelt of the United States, Sir John declared.

Paganism Still Grips Indians

Ancient Customs Still Adhered to in Hazelton Graveyard

HAZELTON, May 29: (CP)—Under the towering peak of "Falling Rocks" mountain range, the native graveyard is a blend of Paganism and the New Faith. Though many of the Indians have been Christianized, complete miniature houses have been built over many of the graves. Clothes and belongings of the departed are placed inside.

In one skirts, shoes, corsets and mirror, brush and comb are hung on the walls. In another an enlarged portrait stands against a trunk filled with garments and toilet articles. Over chiefs' graves stone poems symbolic of their clan are carved.

Food is placed in the houses almost daily. It is invariably carried away by wild animals such as squirrels and rabbits, but the Indians explain the spirits get the food through the wild life.
