### PROVIDE OUR OWN FUEL

The statement made by James Dickson, chief inspector of mines, that British Columbia could produce all her own fuel by installing a modern hydrogeneration plant for the benefit of the coal mines, is a rather startling one and, doubtless, will receive consideration by the government or other interests. If gasoline and fuel oil can be produced cheaply from coal, think what industries may yet be developed at Telkwa, in the Ground Hog country and at other points in the north.

### TREATMENT OF VISITORS

One of the outstanding features of visiting in France is the trouble people will take to show you little courtesies. They will leave their businesses in order to point out something you should see. They will go out of their way to help or serve you. Their whole attitude is an invitation to you to return and meet them again.

In Canada we are not always willing to give our time and effort to making visitors feel that their visits are appreciated. Some do but others do not. Prime Minister Bennett is asking us to be honest with our visitors and to show them courtesy. Hon. Dr. R. J. Manion, minister of railways, who is also head of the Canadian Travel Bureau, is broadcasting an advertisement through the newspapers of the country asking people to create a spirit of neighborliness. It is a timely request and, doubtless, will evoke a hearty response.

## November Relief Is Nearly \$5000

Total of \$4241.35 Administered During Month. City Commissioner States

During the month of November a total of \$4241.35 in relief distribution was administered by the city. It was announced this morning by the City Commissioner W. J. After. The total was divided as follows: families, \$2,097.65; single women, \$43.15; single men, \$1,290.65.

## ULM AND COMPANIONS OVER PACIFIC OCEAN

OAKLAND, Dec. 4.—Capt. Charles T. P. Ulm and his co-pilot, George Littlejohn, and navigator, Jack Skilling, were last night winging their way across the Pacific Ocean toward Hawaii on the first leg of their projected trans-Pacific flight to Australia. They hopped off from here at 3:45 yesterday afternoon in their British-built ship "Star of Australia" and about half an hour later passed the Farallon Islands, sixty miles out. Their plan was to make the trip to Australia with two stops enroute, one at Honolulu and the other at the Fiji Islands. The distance to Honolulu is 2400 miles. They carried 825 gallons of gasoline.

## Winter Starting In Interior Now

Season Has So Far Been Excessively Dry, Says District Agriculturalist

Don Sutherland, district agriculturalist from Smithers, arrived in the city from the interior on Saturday night's train and sailed this afternoon on the Catalin for a trip to Vancouver where he will attend the Provincial Seed Fair, expecting to be in the south about a week.

As elsewhere, winter has been exceptionally late in setting in in the central interior. Mr. Sutherland reports, Smithers had its first real snowfall, about eight inches, last Thursday and at the week-end it was getting quite cold.
