DEFAULTING WOULD BE SERIOUS

Premier Bennett, when defending the loan to the C. P. smithers but still of importance to Watt, C.N.R.; Mrs. M. TOO MUCH OR TOO LITTLE

After the legislature had been in session a few weeks and nothing had been done of a spectacular nature by the government, complaint was made that the Premier was not attempting to fulfil his promises. He was not doing enough. Now that he is taking effective steps to insure action along the lines he suggested on the hustings, he is being blamed for doing too much.

People who expected the Premier to be just an ordinary politician are being grievously disappointed. It is now dawning upon them that he has both courage and brains and administrative ability.

TAKING CARS TO INTERIOR

Prince Rupert people are hardly likely to take as final the decision of the railway company that it will not carry cars to Hazelton for less than forty dollars. As that is the only way out for people who wish to drive beyond the immediate locality it seems to be not only an unreasonable decision but an injurious, destructive decision.

We all appreciate the action of the management of the railway company in keeping the local shipyard busy. It is the logical thing for them to use their own shipyard in preference to taking work to rival yards. We appreciate the fact that they are for the first time doing the right thing in this direction. For that reason most people will hesitate at making the kind of protest that seems to be coming to them in regard to the auto rates. About all that can be done is to keep the matter alive and appeal again and again to the good sense of the management who seem to take a jaundiced view of the situation.
