RESCUED FROM ICE FLOE

Time Commander of 102nd.

While reports have recently been flashed around the earth of the recent discovery of the Queen

of Sheba's lost city in Arabia, Count Byron de Prorok, U.S. explorer, unaware of the reported

find, was fighting his way through the forbidden Abyssinian wilds in search of the fabulous

lost land of Ophir, from where King Solomon is believed to have derived the great wealth that

made him exceed all the kings of the earth for riches. The count and his party of scientists

have been combing the unexplored region between Lake Tsana and the Blue Nile. The base of

operations is at Addis Abada, Abyssinian capital and seat of the Emperor Haile Selassie (above

More Plants Operating, Higher Price and Good Runs Point to Success

All Indications Appear Bright For Fish Packing Industry On This Part of Coast—Three Plants to Operate On Queen Charlotte Islands

With a net gain of at least one operating cannery over last year, the opening sockeye price twenty-five percent higher than in 1933 and at least medium runs of sockeye and pinks expected, the outlook is for an active and successful salmon packing season in Prince Rupert fisheries district this year. Actual packing operations will, as usual, get under way on June 20 with the

opening of the season for sockeye fishing. Already preparatory work FINANCIERS the canneries in the district which contemplate operating this year.

A preliminary canvass shows that the following plants will operate in the district:
