## The Minerals of British Columbia

This Province offers excellent opportunities for useful and profitable investment. British Columbia has produced over \$1,352,000,000. worth of minerals.

The gross value of mineral production for the six months ended June 30th 1934, exclusive of the gold premium, is estimated at \$18,667,691.00, an increase of 50.5% over the estimated value of the production in the corresponding six-month period of 1933. GOLD PRODUCTION:

in Canadian funds to the gold-producers of British Columbia during the first six months for 1934 being approximately \$5,028,-124.00, an increase of 81.3% over the return in Canadian funds received during the first half of 1933.

Gold production showed a decided increase; a total return

Salmon Canning Season Almost Ended—Ternen and Signal Back From Cod Trips-No Canadian Halibut This Week

Except for chum seining early October sees the salmon fishing season over in Prince Rupert district as far as the canneries are concerned although a number of boats are still in operation in the trolling areas. This week-end all salmon canneries in the district are closed down except the Canadian Fishing Co.'s plant at Lagoon Bay and the Mas-

set Canners at Old Massett, both on#\_\_\_ the Queen Charlotte Islands. These, will wish for him a speedy recovery. it is expected, will soon cease operations. The canning season lasted much more profitable one for all concerned.

similar trip, is expected back any than that of 1932.
