So numerous (Jack) McCormack, for many years were the fish that they were being sold at ten for a penny a resident of Stewart, whose death instead of a penny each which at one time was the average occurred recently in Vancouver. retail price.

Most people like music, but too much music is most objectionable. After a long spell of harmony we look eagerly for discord.

One of the most beautiful things in the world is rest. We all need it often and some never get enough, but too much rest is horrible. It is far worse than too much work.

Brilliant conversation is most enjoyable. We all like to meet a person who can talk entertainingly but woe to the J. G. Turgeon of Vancouver was person who talks too long. It were far better for him that chosen as candidate for federal elhe never talked at all.
