A. M. Manson, M. L. A. for Omineca, has commended the action of the provincial government in sending a well qualified location engineer to select the best route for a road from Fort St. James to Finlay Forks. Such a road would be a great boon to the mining moustry of the Omineca district. At present there is a road from Vander-Theof, a distance of forty-two mies,

to Fort St. James. Beyond Fort St.

James there is a semblance of a

road to Nation River which, by now

a mere trail, swings to Manson and

Germansen Creeks, on to the Om-

roads will make possible the devel-

opment of the mines and that the

mines in turn will bring the rail-

ways. He emphasizes that it is folly

Guide to Correspondents

The Daily News welcomes correspondence on live topics of the day or any other subject of public interest, but letters must be brief and to the point. The long-winded correspondent has no place in modern journalism.

Every letter must be signed by the writer, not necessarily for publication but as a matter of good faith and courtesy. All unsigned documents go to the waste paper basket. Letters of a caustic character must have the signature appended for publication.

Letter should be written on one side of the paper only. Correspondents must avoid personalities and the language should be such as would be allowed in the ordinary rules of debate.

Nothing To It. Try It Some Time
