### BUILDING NEW CHURCHES

Last week we told of the laying of the corner stone of a new church at Port Simpson. New churches are also being built at Kitkatla and on the Naas River. This would seem to indicate a religious revival in the native villages of this part of the country.

A great feature of the religious services in the villages is music. The natives on this part of the coast are great musicians and they choose very largely the oratorios written by the great composers as their means of expression. It is a wonderful art and means much to people who are isolated to a great extent and who have little opportunity of visiting the larger cities and enjoying the occasional concerts which are given there.

The new churches will be centres of musical culture as well as religion. Plans are made for the installation of pipe organs and the leaders in the churches are usually leaders in musical education. Surely other churches might learn a lesson from this work that is being carried on by the natives. It must be a great pleasure to the people to feel that they are worshipping in a building erected with their own hands, using an organ paid for by the proceeds of their own labor and joining in music which is the highest expression of devotion man has yet conceived.

### MUST HAVE ANCESTORS

The return of Hon. T. A. Crerar to the Liberal fold reminds us again of the statement made by Upton Sinclair when telling why he joined the Democratic party that in order to win a party must have ancestors. The Progressives broke from the Liberals and made a great stir but they did not arrive. They wandered in the political wilderness for a time but now they seem to be merging back into the two old parties. They had no political ancestors.

So with Hon. H. H. Stevens. He has made quite a stir but he still gives allegiance to the Conservative party if not to its leader. Should he break away and remain detached he will find himself in a group without political ancestors and the probability is he will be re-allying himself with one of the old parties after a period of skirmishing alone.

### HARD TO REALIZE

It is difficult to realize that the first flight of a heavier-than-air powered flying machine took place just thirty-one years ago when Orville Wright covered the remarkable distance of one hundred and twenty feet. The plane, which was built of bamboo poles and linen, was powered with a forty horsepower motor with a top speed of forty miles an hour. Two hundred miles an hour is now common and five hundred horsepower motors are carried, two in a plane. Already the world is becoming air-minded.

From the Waterfront

Grain Ship Here Confirmed—Newington in From Langara—British Trawler Earnings.

Confirmation has been received at local offices of the Alberta Wheat Pool of reports published early last week that the Reardon-Smith Line steamer Bradburn has been chartered for January loading for the United Kingdom or Continent from the Alberta Wheat Pool's local elevator. The vessel is due here on or about January 6.

The C. P. R. coast freighter Nootka last week took a cargo of paper from Ocean Falls to Vancouver for transshipment to the Oriental market.

With a light list of passengers, C. P. R. steamer Princess Norah, Capt. William Palmer, arrived in port at 1:15 yesterday afternoon from the south and sailed an hour later for Skagway and other northern points whence she is scheduled to return here Thursday afternoon south-bound. The vessel was delayed in coming north by making a special call at Union Bay to load coal for Skagway.

Union steamer Catala, Capt. James Findlay, arrived in port at 6:30 last evening from the south and sailed at 8 p.m. for Anyox, Stewart and other northern points whence she will return here tomorrow morning and sail at 1:30 p.m. for Vancouver and waypoints.

Ernest D. Cornelius, well known on the southern runs, has now assumed duty as purser of the steamer Princess Norah on the Alaska route, relieving P. A. Hole who is ashore in Vancouver on vacation.

Lighthouse tender Newington, Capt. Harry Ormiston, returned to port at 5:30 last evening from a week-end trip to Langara Island. She brought over N. Randall, wireless operator at Langara, who is leaving tomorrow afternoon on the Catala for a vacation trip to Victoria.

Sailing from here at her regular time at 10 o'clock next Friday night, C. P. R. steamer Princess Adelaide, will speed up her voyage so as to arrive in Vancouver at 9 o'clock Sunday night instead of 7:30 Monday morning, the regular time. Coming north on December 26, the vessel will leave Vancouver at midnight instead of 9 p.m. This will give visitors to Vancouver for Christmas using the Princess Adelaide a longer stay in the southern city.

Prince Rupert General Hospital disbursements for the month of November totalled \$3812.97, according to report of the finance committee. B. D. Macdonald, chairman, presented at the regular monthly meeting Friday. There were 1507 hospital days during the month at a cost per hospital diem of \$2.53.

There are 1600 British trawlers operating today according to published figures. The average wage of a British trawler hand is \$14.58 per week and skippers \$63.18 per week. In Iceland trips skippers sometimes received \$145.30 per week. Last year 67 trawlers were lost with 37 men.

They do say that, if we had a good Walter Winchell hereabouts, he could dig up an interesting romance concerning one of the prominent citizens of Cow Bay who has been usually regarded as a staid old "batch." However, the longer they wait, the harder they fall, 'tis said. The Whiff Man was denied further information as to identity, etc.

A wire received this morning at the offices of the Union Steamship Co. here announced that the steamer Cardena would sail from here at 6 o'clock Friday evening of this week on her special Christmas sailing instead of at 8 p.m. as previously announced. The vessel is due to arrive in Vancouver early Sunday afternoon.

Armour Salvage Co.'s service boat Pachena returned to port last night with a local hunting party following a two-day trip to Khutzamaten and Kwinmass. The party consisted of Capt. W. P. Armour, A. R. Nichols, F. A. MacCallum, J. A. Lindsay, W. O. Fulton, W. M. Blackstock, Dr. J. H. Carson, John McKay and C. C. Mills. Weather was really too

## Hundred Dollars Reached by Fund

Many Will be Disappointed Unless More Cash is Received for Salvation Army Hampers

The sum of one hundred dollars has been received in all to date for the Christmas Cheer fund of the Salvation Army. Others are planning to give but have not yet got around to it.

Unless more money is forthcoming many children will be disappointed on Christmas Day. That would mar the whole festival. Last week a donation that was entered as anonymous should have been credited to Mrs. G. A. Woodland. Following are other donations received:

Previously acknowledged	\$94.00
Mrs. T. C. Wilding	1.00
Dr. W. T. Kergin	5.00
T. H. J.	5.00
L. Rayner	1.00

## TRAIN HITS MOTOR BUS

Chancellor Hitler's Special in Accident at Level Crossing—Fourteen Are Killed

BERLIN, Dec. 17.—Fourteen persons were killed at the week-end when a special train, on which Chancellor Adolph Hitler was returning from Bremen where he had officiated at the launching of a new liner, crashed into a passenger-laden motorbus at a level crossing. Several others were injured. The Nazi chieftain was merely shaken up.

## C. N. R. Trains

For the East—Mondays, Wednesdays and Fridays 5:30 p.m.

For the West—Tuesdays, Thursdays and Saturdays 10:15 p.m.

fine to make for the best of hunting but, nevertheless, the party bagged two geese and about forty ducks. The goose getters were Walter Blackstock and Charlie Mills who both modestly admit that, if they had been better shots, they would have had a boatload of honkers.

Capt. Pete Byrne returned to port this morning with the Helen II, bringing in a load of flatfish for the Bacon Fisheries.

Capt. Pete Thompson returned to port at the week-end with his hall-boat White Hope from a trip to Vancouver. While away, he had overhaul work carried out on the vessel.

## PALE, PEPPLESS GIRL BECAME PRETTY —AND WASN'T SHE PLEASED!

It all happened in 30 days! In November the girl was pale, run-down and lacked vitality. Weight subnormal; only 91½ lbs. Her blood, when tested, was found to be low in red corpuscles and lower still in haemoglobin, the red substance in the red corpuscles. She was given a 30-day treatment. And what a happy change took place!

She gained nine pounds and her complexion glowed with rosy health. Her face rounded out and she became positively pretty. The treatment—as shown by a second blood test—had greatly increased the red corpuscles and haemoglobin in her blood, consequently she felt and looked radiantly well. The preparation that worked these wonders was Dr. Williams' Pink Pills.

This famous old remedy restores health in a most constructive way. We know that the blood carries nourishment and vitality to every part of the body. But unless the blood has a sufficient number of red corpuscles and red coloring substance called haemoglobin, it cannot carry on its vital work. It is here that Dr. Williams' Pink Pills produce constructive benefits. This remedy increases, in most cases, both the red corpuscles and the haemoglobin. Blood tests prove it!

Good looks and good health are too precious to neglect or experiment with. If your feelings and your mirror tell you that you are under-weight, nervous, sallow, easily tired out—take this tested remedy, Dr. Williams' Pink Pills, for 30 days, as the girl mentioned above did. Then check up on beauty and health you have gained. Full size box is priced 50c.

## A SATISFIED CUSTOMER

In our coal you'll find the heat. That will make your home complete is the best advertisement any firm can have. We do our best to supply you with the most suitable coal for your requirements. When in doubt—play trumps.
