## QUEEN CHARLOTTE ISLANDS

### WEDDED AT SANDSPIT FREE GOLD TAKEN OUT

Miss Amy Rudge and Charles B. Haan of Queen Charlotte City United in Marriage

SANDSPIT, Aug. 3.—The marriage took place here recently at the home of the bride's brother-in-law and sister, Mr. and Mrs. Gust Skog, of Miss Amy Rudge, daughter of Walter Rudge of Queen Charlotte City and the late Mrs. Rudge. The ceremony was performed by Rev. William McKenzie, United Church pastor at Queen Charlotte City, in the presence of relatives and immediate friends of the contracting couple. The attendants were Miss Beatrice Haan and Gust Skog.

The bride wore a lovely wedding dress of white satin with hat to match.

Mr. and Mrs. Haan have taken up residence in Queen Charlotte City.

Small Operators on East Coast of Graham Island Meeting With Success

Several men are continuing to meet with quite good success, making at least a good living, in the extracting of free gold from the beach sands on the east coast of Graham Island north of Skidegate. Two men recently shipped 11 ounces of the yellow metal, this being the yield from about two months' work.

### Island Notes

Miss Sybil Heilwell of the Prince Rupert General Hospital student nursing staff is spending her vacation at her home in Tiell. She arrived last week from Prince Rupert.

After a week's tour of the logging operations of the A. P. Allison Co. at Cumshewa Inlet, the T. A. Kelley Logging Co. at Athl Inlet and the J. R. Morgan Co. at Crescent Inlet, E. C. Manning, assistant chief forester for the province from Victoria, and A. E. Parlow, district forester, Prince Rupert, returned at the end of the week with Forest Ranger J. B. Scott aboard the departmental cruiser Lillian D. to Prince Rupert. Skidegate Inlet was also visited.

Indian Agent James Gillett of Massett paid a brief visit to Skidegate Mission on official duties at the first of last week. He made the trip down on the steamer Prince Charles and returned to Massett by the highway.

Dr. and Mrs. R. G. Large and Dr. and Mrs. Neal Carter of Prince Rupert, coming across in the former's power cruiser, are expected this week at The Dunes, Tiell, for a visit.

Miss Elane Morgan returned last week to her home in Vancouver after paying a visit at Queen Charlotte City as the guest of Miss Margaret Beattie.

Miss Evelyn Anderson returned last week to her duties at the nurses' training school at Royal Columbian Hospital, New Westminster, after a visit at Massett with her mother, Mrs. David Rutten.

Wesley Singer of Massett left last week for a brief trip to Vancouver, returning this week on the Prince Charles. Porter Singer of Vancouver, his brother, is in charge of the store at Massett during his absence.

P. D. Barney, after a two months' visit at Massett, returned last week to San Francisco. His wife, Dr. Barney, is remaining at Massett for a while longer with her sister, Mrs. E. H. Simpson.

A large twin-motored airplane passed over Skidegate Inlet at 6:30 on Wednesday evening of last week. It came from the direction of the west coast and went over into the east. It was flying very high when sighted.

A. R. L. Mallory of Port Clements, road superintendent for the Queen Charlotte Islands, made a trip to Queen Charlotte City on official business last week. Under Mr. Mallory's direction, an excellent job is being made of repairing the Island roads.

Mrs. Robert Scharffe, wife of the well known Skidegate merchant, left last week for Vancouver. Owing to the state of her health, she will probably remain in the south for some time.

Dr. C. C. Starr, well known consulting mining engineer from Nelson, arrived here on the Prince Charles this week from the south. He will make an inspection of the Prince Rupert group and other mining properties on Moresby Island.

John R. Morgan, who has been on a business trip to Vancouver, returned to his logging camp at Crescent Inlet on this week's northbound voyage of the steamer Prince Charles.

## Eastern College Scientists Visit Whaling Stations

Dr. Geling and Mr. Tarr of John Hopkins University, Baltimore, Md., arrived in the city on the Prince Charles yesterday from the Queen Charlotte Islands where they have been collecting data in connection with the glands of whales. Dr. Geling having visited Naden Harbor and Mr. Tarr, Rose Harbor. They will sail on the Princess Adelaide tonight for Vancouver whence they will return east.

## WITH MANY INDUSTRIES OPENING UP AGAIN, INSULAR DISTRICT HAVING BUSY SEASON

(Continued from page one)

birds such as geese and ducks and animals such as bear and deer abound. Motor roads are good and there are nearly 100 miles of them already. There are also beautiful cruising waters. With the development of tourist traffic to the Islands, transportation services generally might be speeded up and this would be a great advantage to the people already residing there.

In spite of the fact that Island industries during the past few years prior to 1934 have been somewhat quiet, most of the residents there have been able to make a comfortable living. Farming and fishing may be combined to advantage there as elsewhere in this district.

**Massett Busy Point**  
Massett is the busiest of the Queen Charlotte Island communities this year with two salmon canneries in operation, hundreds of trollers busy on the grounds in close proximity and the whaling station at Naden Harbor running again. The removal of the Allison Logging Co.'s camp from Queen Charlotte City to Cumshewa and the slowing down of mining operations has had the tendency to make things a little quieter there but the near future should undoubtedly see a renewal of timbering and mining activities in the immediate locality. Port Clements is another centre that looks forward to an early re-opening of its timber resources.

**Principal Industries**  
Following are some of the principal industrial activities at present in operation on the Islands:  
Logging—A. P. Allison Logging Co., Cumshewa Inlet; J. R. Morgan Logging Co., Crescent Inlet; T. A. Kelley Logging Co., Athl Inlet.  
Sawmilling—Robertson & Simpson, Massett.

Salmon Canning—Massett Cannery, Old Massett; Nootka Packing Co., New Massett; Canadian Fishing Co., Lagoon Bay.

Mining—Haida Gold Mines Ltd., Kootenay Harbor.

Whaling—Consolidated Whaling Corporation, Rose Harbor and Naden Harbor.

As mentioned before, trolling operations on the north of Graham Island are employing hundreds of men both in actual fishing and in the services connected therewith. Further fishermen will shortly go to work in the salmon seining.

Miss Nancy Pallant of Skidegate left last week for Vancouver where she will pay a visit with her mother, Mrs. A. C. Pallant.

# ANNETTE'S CLOCK SALE

Saturday, August 4th, 2 till 4

### NOTE:

Annette has Just Returned from the south. While there she was able to procure the following outstanding values in Ladies' Wearing Apparel.

## CONES ARE GATHERED

Hemlock, Spruce and Yellow Cedar Seed to be Taken From Queen Charlotte Islands

The Dominion Seed Branch will take a greatly increased quantity of cones this year from the Queen Charlotte Islands. The Graham Island Farmers' Institute will direct the gathering of the cones which will be forwarded to the seed extraction plant at New Westminster. Many of the seeds will be sent to the United Kingdom where they will be used for reforestation purposes.

The principal varieties of cones

## COOL OFF By Cooling Your Blood

It is when the heat gets into your blood that you begin to "feel the heat". Take a sparkling, invigorating glass of Andrews Liver Salt at such times. Taken while it is still effervescent, Andrews will have an almost immediate cooling effect, because it is not only a delicious, thirst-killer, but a means of cooling your blood. You will feel cooler for hours after taking Andrews—and more vigorous, too. Andrews, indeed, is a splendid conditioner when taken occasionally the year round, say about twice each week. If you pursue common-sense principles in your living, eating and sleeping habits and take Andrews occasionally, you will escape all the minor mal-adjustments which occur in every normal system. Keep cool—and fit—by taking Andrews. At all druggists. In tins, 35c and 60c. New, large bottle, 75c. Sole Agents: John A. Huston Co., Ltd., Toronto.

taken are hemlock, spruce and yellow cedar, the latter commanding a much greater price than the two first-mentioned varieties.

## SURF INLET BUSY AGAIN

Famous Old Mining Property on Princess Royal Island Soon to Be Running Again

Compressor and power plant are now running, the railway line is in commission, a tugboat is in operation on the lake, forty men are employed, ore shipments will be commencing in the very near future and, within the course of the next few months, after the old mill gets in operation again, movement of concentrates from the famous property will commence, states J. B. Woodworth of Vancouver, president of the Princess Royal Gold Mines Limited, in summarizing the progress of re-opening the well known Belmont-Surf Inlet mine at Surf Inlet on the west coast of Princess Royal Island, down the coast from here. A shipment of eight tons of specially selected ore made recently gave returns of \$158 per ton. The general run of ore is expected to go from \$8 to \$50 per ton. Work of re-opening the property has been in progress for some time. Mr. Woodworth arrived in the city yesterday after a visit of inspection to the Surf Inlet property and will sail tonight by the Cardena on his return to Vancouver.
