Addressing Rotary Club Yesterday

Prince Rupert Has Many Advantages-Comparisons With Other Cities

In his address to the Rotary Club at its weekly luncheon yesterday, W. M. Blackstock presiding, City Commissioner W. J. Alder stated that he was just as optimistic in regard to the prospects of Prince Rupert as ever he had been. He said he felt sure that capital would eventually recognize the opportunities that existed here. One major industry added to those already here would solve the problems of the city or a number of small industries would have a similar/effect. Real estate values would improve and lots held by the city would be in demand.

In opening his address, the Commissioner expressed the view that all should be interested in civic affirst class permanent business fairs. Dollfuss, Mussolini Sign Treaty

Premier Mussolini made an appearance at the railroad station in Rome, to greet the diminutive Chancellor Dollfuss of Austria, who went there for a conference with the Italian premier and Premier Goemboes of Hungary. These conferences ended in the agreement on the Danubian pact, a "little treaty" signed by the three nations. The above shows Mussolini and Dollfuss greeting each other at the station.
