PORT SIMPSON'S OPPORTUNITY

Port Simpson is close to one of the best salmon trolling grounds in British Columbia. Within an hour's run from that the food has become exhausted Mr. Bakewell wished to clear up a that village an angler could pretty well depend upon strik- and the plant has died of starva- point from Friday night's meeting ing fish during the season and possibly within a few minutes. It is a beautiful village, full of historic interest and we keep it well moistened with some victimizing by paper companies of well worth a visit, even without the added attraction of of the washings that we have ob- employees who had voted C. C. F. good sport.

With such attractions as these it should be possible for Port Simpson residents to make the village one of the centres of attraction in the Northern B. C. coast waters. What is needed is organization and a certain amount of persis- less aerial part becoming green. If tent advertising to place it on the map as a fishing and summer resort.

There was a time when Port Simpson was talked of as would have taken place but it would Connell stated that Marx had been the probable terminus of the C. N. R. The village lost out have been that of a weak seedling largely a critic of the capitalistic to Prince Rupert. Since that time little change has taken and soon have perished. This tells system whereas the C. C. F. had a place there. It is unspoiled and should be kept so. At the us three things: first, that a fertile political platform. The main difsame time there seems no good reason why it should not which the seedling can grow, sedo its share in attracting to this part of the country sea |cond, that an infertile or poor soil anglers who would like to enjoy salmon trolling as a sport. lacks some or all nourishing plant Someone would have to provide facilities for visitors and food, and third, that the food is not Prince Rupert, we are sure, would help let them know about its attractions.

At Victoria for many years only a few enthusiasts knew of the salmon fishing in Saanich Inlet. Fishing there was confined to the sportsmen who went out for week-ends. Today it is an organized sport controlled by the Victoria- in spite of adding air and water Saanich Inlet Anglers' Association which issues a pretentious booklet each year telling of the attractions of the inlet.

Port Simpson has much more than Saanich Inlet and the possibilities of development there are wonderful.

British Columbia

The Mineral Province of Western Canada

The outstanding development in mining in British Columbia during the past year has been the increase in Gold Production.

Estimates of mineral production for 1933:-

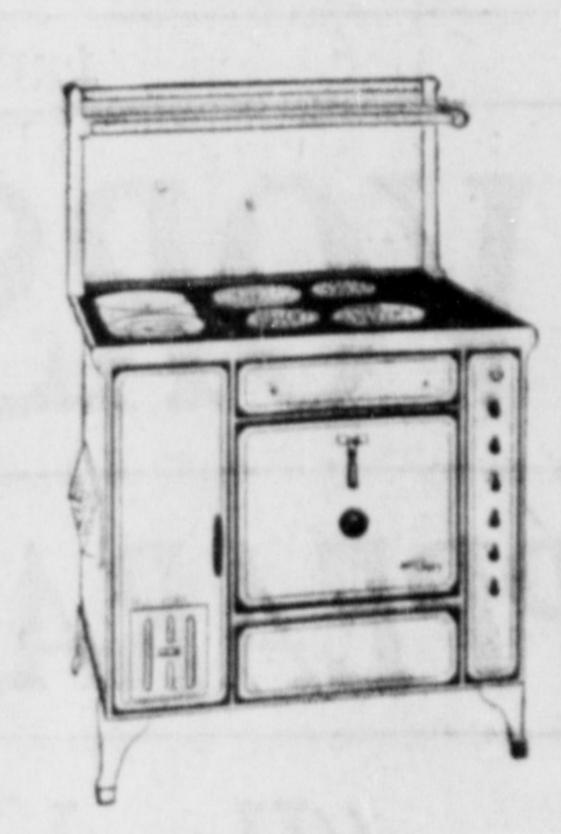

GOLD \$4,230,000 7,000,000 ozs. 260,000,000 lbs. 150,000,000 lbs.

The pay-roll of the mines is estimated for the year at \$18,000,000 and dividends at \$2,000,000.

We invite investors to apply for authoritative information regarding mining development in the Province to:-

COOL IN SUMMER WARM IN WINTER

Your Cooking . Heating Problems Need Worry You No Longer

A happy "combination" if ever there was one. This practical range has four burners and one of those roomy ovens for cooking and ... a fully equipped firebox for heating. It is indeed a dream come true, because during the warm weather you can cook at your ease with electricity, in a cool, dustless kitchen and when the colder weather comes around, there is that convenient firebox to heat with, as well. Electricity for quick, clean and effortless duties and the firebox whenever Jack Frost decides to pay your neighborhood a visit. Perfect is it not!

Then you will find the price surprisingly low-with terms of payment so moderate that practically everyone can enjoy this extra comfort and convenience. May we have the pleasure of showing you this combination range? We will appreciate a visit from you at any of our stores. Seeing is believing you know, so come along just as soon as possible.
