Another Test Run

The Socony-Vacuum Corporation of New York conducted a est run of many makes of cars on a route through the Peace River Country, Alberta, touching at Edmonton, Saskatoon, Moose law, Regina, North Portal and down through the United States and on into Mexico. The leading car was a Ford V-8 Fordor, owned by the Socony-Vacuum and bringing up the rear was a -8 Cabriolet which was driven by the Secretary of the Expedition. Included in the tour were a Chevrolet, Buick, Oldsmobile, LaSalle, Cadillac, two Pierce Arrows, G. M. C. truck, Studebaker,

It is interesting to note that it was reported on the arrival of he caravan at Edmonton from the Peace River Country that the V-8's were the only units which made the round trip through mud without having to be towed. On a close check we find one of the V-8's travelled ten continuous hours in low gear, the temperature never exceeded 140 degrees and gasoline consumption was one gallon to ten miles while running in low gear. All the other cars had bolling radiators and required repeated additions of water.
