THE YEAR 1934

The year 1934 is passing tonight. It has been an outstanding year in that it has seen improving conditions the modern that must conscient after she has finished loading. throughout Canada. Unfortunately, all Canadians have jously become the centre of nanot yet felt the betterment but have had to subsist on sub- tional economy in order to dominnormal wages and a number have had but a bare subsis- ate all the forces of the market and years a member of the staff of the

Politically while there has been a decline in interest in prices, production and distribution, here, is terminating his duties what are generally known as freak organizations, there sources possessed by humanity and staff of Edward Lipsett Ltd. on the has been a decided movement toward legislation for the the natural forces and exercise waterfront. Allan (Bill) Vance is betterment of the masses. Not much has actually been done them in the interest of the nation, joining the staff of the C. P. R. ofbut leaders have been outspoken and, doubtless, legislation will follow. Conservatives are becoming more liberal and Liberals are becoming more radical. All of this is a movement in the direction of alleviation and equalization.

THE COMING YEAR

It is difficult to say what will happen in the coming year. Wars have been prophesied but it seems hardly likely that there will be any important outbreak during 1935. The anti-war tendency is daily becoming more pronounced while war preparations are increasing. This is a curious anomaly.

Canada is becoming more conscious of the fact that the sic yesterday afternoon at the country is made up of a number of different factors and Prince Rupert General Hospital that each of these must be satisfied with any policy that and staff. There were carols by the is adopted making for the success of the whole. If Ontario members of the club while other and Quebec adhere to the idea that they are the whole of numbers included vocal quartets by Canada and that the rest of the country is but an adjunct Mrs. J. H. McLeod, Mrs. J. H. Cartacked on for their particular benefit, there is bound to be son, Mrs. S. D. Johnston and Mrs a breaking up. But there is every sign that a change is H. McLeod, Mrs. Ernest Anderson, taking place and that the wishes of the east and west will Miss Lillian Halliwell and Leonard be considered more than ever before in the 1935 policies.

IN THE LAP OF THE GODS

The future of Prince Rupert is very much in the lap of the gods. Business this year was better than last although Harrison R.N., lady superintendent, not very much better. Some merchants reported five, ten, the club at the Nurses' Home. twenty-five and even fifty percent better, while one or two said business was not as good. On the whole, the average was decidedly up it seems.

There is talk of pulp mill activities early in the New Year but it is not at all a certainty. There is a possibility of fishing commencing earlier this year. Grain is moving through the elevator and there is work lined up for the shipyard. Logging camps will be busier and mining is in better shape than for years past. Also more work will be done on the highway. We predict a more active season for | Served at All Times of 1935 than for 1934.

In view of the situation and the fact that an election is to take place this year, we suggest that local people do not allow polities to take precedence over local interests. While we may be divided in our choice for representation at Ottawa, we can unite wholeheartedly for all things that will advance the interests of Prince Rupert.

The Letter Box

REAL MARCH FORWARD

Editor, Daily News:-

The placid waters of mere partyism are somewhat disconcerted. The average mentality of grab, of serving the party at the expense of the country is out of date. The grim reality imposes on politics a sterner duty to the nation, and demands service to the masses. Today every one realizes that economic freedom spells all kinds of abuses as dramatically bared in the Stevens' investigation. In this crucial hour, the philosophy of action has won over

Events are fast moving with legs giants. On the right, there is the leg of Premier Bennett in his leftnomy, consequently, a control of prices, wages, profits and marketling. On the left, there is the leg of the social creditors with the people's bank and consequent extension of credit and a policy of distribution of purchasing power through public vorks championed by Mackenzie King. In other words, the issue is 'Controlled Economy" versus "Distribution of Credit."

Premier Pattullo has advocated the mobilization of national credit! to provide work and wages. Parallel with that he has enacted the Economic Council, the Wage Board and the Marketing Act. One can readily see that Pattullo is for a real march, for he is moving with both legs. namely the one of state control of economy and the other of distribution of purchasing power with work and wages which will provide a real New Deal.

Bennett and Mackenzie King are for a limpy march whose combined action would constitute a real march of attack against the common enemy who is to be found within everyone of ourselves, namely, selfishness and greed.

Mr. Editor, in reading your worthy editorial, "Political Purg- load a full cargo of grain from the ing." I realized that a real march Alberta Wheat Pool's local elevator is to be in Canada. The die is cast, for the United Kingdom or Contin-Shortly the rubicon of "laissez- ent. Capt. Wearmouth was formerly faire" is to be crossed. The march a master of Grand Trunk Pacific from Vancouver via the Queen for a real New Deal as advocated by steamships and is well known along Charlotte Islands, having arrived at B, C. will be resumed.
